Declare American Living Standards Have Been Dealt Disastrous Blow

By Francis W. Carpenter
LAKE SUCCESS, N. Y., Aug. 29.—(P)—Soviet Russia today blocked the applications of Ireland, Trans-Jordan and Portugal for membership in the United Nations for the sole reason that Russia does not have diplomatic relations with those countries.

Refusing to explain his position further despite sharp challenges from a majority of his colleagues, Andrei A. Gromyko, of Russia, told the U. N. Security Council that Russia could not support the applications of those countries for the reasons that they do not have normal diplomatic relations with the Soviet Union.

WASHINGTON, Aug. 29.—(P)—OPA clung today to its schedule for restoring meat price ceilings September 9 despite the 11th hour snarl that kept live animals free of controls for four extra days.

When the new schedules are posted, however, they will average about five and one-half cents a pound higher for beef and between two and one-half and three cents a pound more for pork than June 30 ceilings. But they'll still be below current costs.

OPA and the agriculture department agreed on those estimates after differing sharply on what ceiling to clamp on the live stock markets.

Secretary of Agriculture Clinton P. Anderson resolved that dispute by taking advantage of the new power congress granted him. He directed OPA Chief Paul Porter to hike the June 30 live animal ceilings by \$2.25 a hundred for beef and \$1.40 for pork in an effort to stimulate production.

The CIO cost of living committee today labeled this action as the climax to "a long series of incidents in which Anderson has acted as mouthpiece for profiteers."

In a statement issued by Chairman John Thornton, the committee said American living standards have been dealt "a new and disastrous blow" and added:

Country Should Know
"The country has a right to know whether the President stands behind Anderson's decision."

The cabinet officer himself had pointed to what he called an "alarming liquidation of livestock during the period of no controls and asserted in a statement:

"The whole situation clearly emphasizes the urgent need for price levels which will be a stimulus for future production, rather than levels which would impede production."

The new live animal ceilings were to have gone into effect last midnight, but OPA late yesterday announced a delay until Sunday to permit the agency to complete work on a new set of price tops for packers, wholesalers and retailers reflecting the higher levels ordered by the secretary.

OPA said ceilings still will apply Sunday to slaughterers and packers, on September 5 to wholesalers and on September 9 to the butcher shops.

Subsidies Back
To complete the program, the reconstruction finance corporation announced last night that effective Sunday it is restoring the slaughter subsidies which lapsed with price control June 30.

Otherwise the food price picture included increases for prepaid pancake and waffle mixes, canned Hawaiian pineapple and pineapple juice, canned salmon, and most syrups.

OPA said the popular 20-ounce sizes of plain pancake and waffle mix as well as buckwheat pancake mix will rise two to three cents because of higher prices on flour and corn meal.

Fancy sliced Hawaiian pineapple will climb four cents a No. 2½ can. The agency said this resulted from an increase of 13.5 per cent allowed pineapple processors on the entire 1946 Hawaiian crop.

A one pound can of Alaskan red salmon will cost six cents more, while the pink variety goes up four cents. This results from a 12½ per cent increase for salmon canners ordered by Anderson to encourage production.

The syrup boosts will amount to as much as 20 per cent for blended maple and cane syrups, OPA said, as a result of increases required for producers, wholesalers and retailers under terms of the new price control act.

Work Stoppage Ends

COLUMBIA, Mo., Aug. 29.—(P)—A threatened work stoppage on all union construction projects in this city ended yesterday.

Center of the dispute was non-union ready mixed concrete used on a paving project. The union solved the problem by providing a concrete mixer and trucking in other equipment from St. Louis.

Taylor Coming Home

LONDON, Aug. 29.—(P)—Myron C. Taylor, President Truman's representative at the Vatican, left by plane today for New York.

He Grows Real Tomatoes

His tomatoes are penderosas, and while they are the first planting of tomatoes, they were planted in late May after he had previously grown other vegetables in the early spring. (Staff Photo.)

Wm. D. Shain is Defense Atty. In War Trials in Philippines

William D. Shain, son of the late Judge and Mrs. Hopkins B. Shain, is now in Manila, P. I., and a defense attorney in the Philippines, according to a letter received in Sedalia by friends.

Shain, throughout the war, was in the merchant marines, serving as a steward. Prior to entering the service he was an attorney in Sedalia and Kansas City.

Upon his return to San Francisco, where Mrs. Shain and their two children had been living since the war, he took the civil service examination and rated among the top attorneys. He was assigned to Manila.

Since his arrival there he was assigned as a defense attorney for the Japanese who are being tried for war crimes. He stated he has started on his first case. He reports there are over 300 cases in Manila and that he is one of twenty lawyers assigned to such cases. The army had its own defense attorneys until recently.

Living Conditions Good
He writes he is in a "tent" city and it is better than it sounds. He says Manila is about 75 percent torn up, but building has started and gradually the city will be rebuilt. Where he is living there is a swimming pool, picture shows and other good entertainment.

Mr. Shain said he was flown to the Philippines in a C-54 with stops at Honolulu, Johnson Islands, Kwaglin Islands, Guam and then the Philippines, making the trip of 7,500 miles in three days with only 40 hours in the air.

His family will join him about the first of the year. He is a brother-in-law of Dr. W. A. Beckmeyer, being a brother of Mrs. Beckmeyer, who passed away several weeks ago.

Post Office to Close Labor Day
Monday, Sept. 2, being a legal holiday, all windows at the Post Office will be closed.

There will be no delivery of mail by city or rural carriers but Special Delivery mail will be delivered as usual.

The regular holiday collections will be made from street letter boxes and all out-going mail dispatched.

Comment on Donnelly's Talk
ST. LOUIS, Aug. 29.—(P)—Richard T. Miller, president of the St. Louis police union, asserted today that Governor Phil M. Donnelly's speech at Sedalia Tuesday night, in which leaders of the union were criticized, was "an attempt to save his political life."

Appearing before the Missouri Farmers' Association, Donnelly denounced leaders of the union for what he described as a "brazen scheme" to continue the police union underground.

The union, a unit of the AFL-American Federation of State, County and Municipal Employees, voted recently "to go underground" because of an order by the board of police commissioners directing its members to withdraw from the organization by tomorrow or face the possible dismissal from the police force.

Miller told a reporter the Governor's move "will be understood by all voters, especially the working men he has continued to attack."

Two Groups of MML Are in Session Here

City Officials Discussing Legislative Needs

The board of directors and legislative committee of the Missouri Municipal League are holding a joint meeting in the City Hall here today. More than thirty members of the League are attending. Mayor Bruce Carl, of Columbia, is presiding.

The group is discussing the direct needs of each city which require legislation. These legislative needs are being discussed pro and con prior to completing plans for proposed laws to be presented to the next Missouri state legislature which meets in Jefferson City.

The men also discussed various forms of taxation and their problems in regard to the many departments of each city.

The meeting opened at 10 o'clock this morning and is continuing through this afternoon. The group adjourned at noon and had luncheon at the Bothwell hotel.

Late this afternoon the board of directors elected Mayor Julian H. Bagby to the board, filling the vacancy created by former Mayor A. H. Wilks. Other new directors elected were: Mayor H. D. Allison, St. Joseph; Mayor Harry B. Carr, Springfield; Ray Carter, councilman from Carthage. One more vacancy is to be filled by appointment by Mayor Bruce Carl, chairman of the board.

A committee to study the question of state collected and locally shared revenue was appointed by Chairman Carl. It is in regard to monies collected by the state in which a community shares.

The committee is composed of George Stemmler, city councillor of St. Louis; Marion Lamm, city attorney at Moberly; Ruel M. Womack, commissioner of revenue of Springfield; Frank Martini, mayor of Maplewood, also vice president of the League; and Otha Rawlings, city attorney of Marshall.

Those Attending

City officials attending the meeting are F. L. Thierfelder, superintendent of the Light and Water department, Mason, and secretary of the Missouri Association of Municipal Utilities; Max H. Glover, city attorney, Carthage; Ray Carter, city councilman, Carthage; Glen Mohler, city attorney, Clayton; Bruce J. Carl, mayor of Columbia and executive director, Municipal League; Robert T. Sermon, mayor of Independence; Jerome M. Joffe, special utilities and legislative counsel, Kansas City; J. C. Griggs, mayor of Carthage; H. Tiffin Teters, city attorney, Carthage; U. G. Caldwell, city clerk, Columbia; Arthur F. Bangert, mayor of Florissant, also a member of the board of directors of the league; Marvin E. Boisseau, city attorney, University City; Frank L. Martence, mayor of Maplewood; Dr. S. B. Hughes, mayor of Clinton.

Busch, Head Of Brewing Concern, Dies

ST. LOUIS, Aug. 29.—(P)—Adolphus Busch III, president of Anheuser-Busch, Inc., a famous brewing concern, died today at Barnes hospital, where he had undergone an operation last week. He was 55 years old.

He had been president of Anheuser-Busch since 1934, when he was elected to succeed his father, the late August A. Busch. He was an officer also of several corporations in which the family held interests.

He is survived by his second wife, formerly Mrs. Catherine Miliken Bowen, of Dallas, Texas; two daughters, his brother, August A. Busch, Jr., vice president and general manager of Anheuser-Busch, and two sisters, Mrs. C. Drummond Jones and Mrs. Percy Florentine. His first wife was Mrs. Florence Parker Lambert, from whom he was divorced in 1930.

Learned Business From Father
Adolphus, grandson and namesake of the founder of the brewing corporation, learned the brewing business from his father. He was acting head of the company during the months of illness which preceded his father's death. Earlier he and his younger brother, August, worked with their father on the problems entailed by national prohibition and in the process of reconversion following repeal of the eighteenth amendment.

Threw Coffee on Photographer
NUERNBERG, Germany, Aug. 29.—(P)—Hjalmar Schacht, former Reichsbank president and one of the war crimes defendants, threw a cup of steaming coffee today on B. I. Sanders, Associated Press photographer.

Sanders calmly wiped off his camera and took his picture of Schacht, who was eating lunch in a small dining room above the international court room.

Ducked, No Doubt
CARLSBAD, N. M., Aug. 29.—(P)—There was just a half-inch too much water for the Boy Scouts' water carnival.

The extra half-inch was rain.

Predict Strike Will Be Settled
CLEVELAND, Aug. 29.—(P)—Federal conciliator Noel Fox predicted today the Great Lakes maritime strike would "be substantially settled by the middle of next week," as two companies and the CIO-National Maritime union reached tentative agreements to end their differences.

Fox reported that representatives of the Interstate Steamship Co., and the International Harvester Co., today approved a tentative agreement for ending the stoppage which has tied up six ships of the two firms.

Marrying Over Telephone
CHARLESTON, Mo., Aug. 29.—(P)—Miss Lorraine Johnson of Cicero, Ill., will come to Charleston tomorrow to be married over long distance telephone to Sgt. R. A. McCullough in Honolulu. The services are scheduled for 9 a. m. and will be conducted by the Rev. A. B. Cooper at his home here.

Sgt. McCullough is with army ordnance in Okinawa but has returned to Honolulu for the telephone marriage services.

Prosecution Ends Its Case
FRANKFURT, Germany, Aug. 29.—(P)—The prosecution concluded today its case against Mrs. Kathleen Nash Durant, charged with larceny and embezzlement of the Kronberg jewel collection. The military court granted the defense a three-week recess to line up its witnesses.

The court threw out the conspiracy charge against the WAC Captain, approving a defense contention that evidence failed to support it.

Prosecution attorneys said the war department had prepared to send witnesses for the defense by air from the United States next week.

The defense has asked for at least six witnesses from the United States.

Among witnesses sought are army officers at Fort Sheridan, Ill. The defense wishes them to testify in its effort to show that Mrs. Durant never was reintroduced into the service and therefore is not subject to military court-martial.

Australian Proposal Beaten 13-6

PARIS, Aug. 29.—(P)—The foreign ministers of Britain, Russia, the United States and France met this afternoon in an effort to find a way of revitalizing the Paris peace conference.

Shortly before the ministers gathered in the office of Georges Bidault, president and foreign minister of France, the conference had witnessed another of the clashes which have bedeviled the peace making. An Australian proposal to establish a sub-committee to collect factual data on the Italian-French frontier was beaten 13 to 6 in the Italian commission after a heated Russian exchange.

The four principal powers and nine other nations voted against the Australian plan.

PARIS, Aug. 29.—(P)—The foreign ministers of Britain, Russia, the United States and France met this afternoon in an effort to find a way of revitalizing the Paris peace conference.

Shortly before the ministers gathered in the office of Georges Bidault, president and foreign minister of France, the conference had witnessed another of the clashes which have bedeviled the peace making. An Australian proposal to establish a sub-committee to collect factual data on the Italian-French frontier was beaten 13 to 6 in the Italian commission after a heated Russian exchange.

The four principal powers and nine other nations voted against the Australian plan.

United States Secretary of State James F. Byrnes, British Foreign Secretary Ernest Bevin, Soviet Foreign Minister V. M. Molotov and Bidault met in the building containing the famous clock room where the big four of 1919 framed the treaties which they, too, hoped would end war.

An Amendment
Their first task, it was believed, was to devise a common ground for dealing with the 300 amendments to treaty drafts which have snowed the conference under. As they met only preambles to four of the treaties had been adopted in commissions. The conference itself had yet to pass on most of these, having passed on less than 200 of the 55,000 words in the five treaties for Bulgaria, Italy, Romania, Finland and Hungary.

Secretary Byrnes was the first to arrive at the Quai D'Orsay. He was accompanied by his advisors for the meeting, Senators Arthur Vandenberg (R-Mich.) and Tom Connally (D-Tex.) and his interpreter, Charles Bohlen.

John A. Beasley, the Australian delegate, took up the award of the Mont Cenis plateau to France in particular in his argument before the Italian commission that a special committee should make a study on all disputed territorial questions connected with the Italian treaty.

Reports Money And Car Gone

Lloyd Harris, 1005 Woodruff Edge, Springfield, Mo., a magazine crew manager, this morning reported the theft of \$270 in cash and \$30 in checks from him early this morning. Also missing was his 1941 Ford station wagon belonging to the Central Circulation Co. of Springfield, which Mr. Harris has charge of.

According to Harris, who made the report, one of his salesmen is believed to have slipped into his room, picked his pockets, taking the money and akeys to the station wagon.

The man was described as being 27 years old, five feet, nine inches tall and weighing about 143 pounds. He was wearing a "T" shirt and tan trousers, has blue eyes and blonde hair.

A warrant was issued by Prosecuting Attorney for the salesman.

Defendants Uncomfortable At Nazi Trial

NUERNBERG, Germany, Aug. 29.—(P)—U. S. Prosecutor Thomas J. Dodd asked today for the conviction of five Nazi organizations on war crime charges, declaring they were part of the Hitlerian police state perfected "into the most absolute tyranny of modern times."

Dodd denounced defense efforts to shift the blame for war crimes from one German group to another. The 21 individual defendants in the box acquitted comfortably as the accused beamed the international military tribunal their oft-professed ignorance of the deeds of the organizations which they headed.

Herman Goering once raised half out of his seat as if wanting to clamber over the rail, but relaxed even before the military policeman at his side found it necessary to restrain him.

Dodd said the organizations sacrificed in his speech were "Nazis created" or "Nazi-perverted."

Named Principal Agencies
He declared the indicted Reich cabinet, political leadership corps SS Elite Guard, SA Brown Shirts and Gestapo — together with the military high command — were the principal agencies through which the Nazis effected their "enormous crimes" against civilization.

"Deprive the Nazi conspirators of these organizations and they could never have accomplished their criminal aims," Dodd told the tribunal. By convicting them, he said, the court would show mankind:

"That no crime will go unpunished because it was committed in the name of a political party or of a state; that no crime will be passed by because it is too big; that no criminals will avoid punishment because they are too many."

Dodd is executive trial counsel for Associate Justice Robert H. Jackson, the U. S. chief prosecutor.

Jackson earlier had urged the conviction of 22 individual Nazi leaders, who with the organizations have been on trial since last November. If an organization is convicted of war crimes, the next step by the Allies will be to identify and try individual members other than the 22 principals in the main case.

Foretaste Of Autumn
CHICAGO, Aug. 29.—(P)—A foretaste of autumn spread over the middle west today as temperatures in three states dipped into the 30s or below.

Land O'Lakes, Wis., reported a minimum reading of 26 degrees, accompanied by a light frost. Other low temperatures included 36 at St. Cloud, Minn.; 37 at Wausau, Wis.; 38 at Spencer, Ia., and 39 at Madison, Wis.

To forecast for Chicago, which had a low of 53 last night, was for a minimum of 45 tonight. The weather bureau said this would represent the coolest night in August in the bureau's history in Chicago. The previous record was 46.9 degrees on August 25, 1917.

No immediate change was in sight as a mass of cold air from Central Canada blanketed the mid-section.

War Department Orders Reduction in Civilian Employees
WASHINGTON, Aug. 29.—(P)—The war department today ordered a reduction of 53,079 in its civilian employees throughout the country by October 1, to meet President Truman's and congressional economy orders.

Under budget bureau instruction total personnel will be reduced from 572,579 on the payroll July 31 to 519,500 by October.

May be His Last Birthday
GRANBY CENTER, N. Y., Aug. 29.—(P)—Little Gary Halstead, waging a losing battle against a brain cancer that already is causing blindness, observes his fourth birthday today as host to his playmates at an ice cream and cake party.

The festivities at the Halstead home in this upstate New York village were planned by Gary's mother, Mrs. Clifford Halstead, who fears that this may be his last birthday party.

"One never knows when the end will come," said Mrs. Halstead, explaining that the blond, blue-eyed youngster had been pronounced incurable by several specialists.

"That's why we try to give him everything he wants as soon as possible," she added.

An outdoor slide, a telephone set with batteries, toy trucks and model airplanes were among Gary's birthday gifts.

Gary was allowed to play with the toys as soon as they were received rather than wait for his birthday.

Medical authorities have advised that any attempt to remove Gary's malignant growth would prove fatal, Mrs. Halstead said.

Extend Time on Sugar Stamp 49

WASHINGTON, Aug. 29.—(P)—OPA announced Tuesday that the spare ration stamp 49 will be good for 5 lbs. of sugar through Sept. 30, instead of expiring Aug. 31 as originally scheduled.

The extension was granted, the OPA said, because of local shortages which have prevented housewives in some areas from using the stamp. The agency said spare stamp 51 will be good for five pounds of sugar during the October-December quarter.

The sugar stamp announcements came as the administration's economic high command sought to reconcile differences between OPA and the agriculture department on the level of ceilings to be reestablished on meat animals Thursday.

The agency announced that processor ceilings on all canned tomatoes have been increased 14 cents a dozen on number 2 cans, effective immediately. This will eventually boost consumer prices in grocery stores two cents a can in addition to a 2-cent increase previously granted.

In a third move, the OPA removed price ceilings on baby foods and junior foods, including pre-cooked dry cereals.

Former Army Doctor Talks To Kiwanians

Dr. Gordon Stauffacher, who was an army major, told of his training, travel and combat experiences during the war, in a talk before the Sedalia Kiwanis club meeting in Bothwell hotel this Thursday noon. He was introduced by Dr. J. W. Maunders, program chairman.

Dr. Stauffacher participated in the invasion of Leyte island in the Philippines and later went to Okinawa. He gave an interesting description of the type of equipment used in convoy and amphibious combat missions, also of Japanese attack methods.

Gift To Mrs. Yonegan
Mrs. W. L. Yonegan, club pianist, was presented a birthday gift by the club members.

Rev. Fr. A. Brunswick, president, announced there would be a meeting of the board of directors and committee chairmen at the Bothwell Friday noon.

Guests were: Jerry Trotter, Sedalia, with the Rev. H. U. Campbell; Kiwanian Lawrence McCarty, Columbia; Jim Ryan, Warsaw, with Clyde Heynen; Walter Hunt with his father Ray Hunt; Burnt Morris, Nashville, Tenn., who led the singing, and sang two solos, with Pinkney Miller.

MANY NEVER SUSPECT CAUSE OF BACKACHES

This Old Treatment Often Brings Happy Relief

Many sufferers relieve nagging backache quickly once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 2 pints a day. When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up at night, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with a burning or stinging sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulating diuretic, used successfully for millions for over 40 years. Doan's give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Mushrooms Mushroom on GI Loan; So do Advertising, Beauty, Junk and Horses

By CLIFF McDOWELL
(Editor's Note: In fox holes, tents and Quonset huts, many a GI dreamed of being his own boss when the war ended. This is the last of two dispatches that tell how those dreams came true for a typical cross-section of GI Joe—and GI Jill, too—in California.)

Junk, but exclusive: Elizabeth Husel bosses a California second hand shop with her dad, veteran of another war, lending a hand with the heavy work of reversion.

NEA Staff Correspondent
SAN FRANCISCO—(NEA)—This business of being a veteran isn't limited to men, and former WACs and WAVES are finding a brief career in the Army and Navy the means to a life-long career as their own bosses.

Three San Francisco ex-service women, backed by GI loans, already have crossed the first hurdle on the road to success: their new businesses are beginning to pay. Mrs. Adeline I. Kennan wasn't kidding when she started an advertising business last April. Mrs. Adeline I. Kennan wasn't kidding when she started an advertising business last April. Mrs. Adeline I. Kennan wasn't kidding when she started an advertising business last April.

From Seabees to stables: John R. Curry, who nabbed three Jap nags on Guadalcanal to lighten his war work there, now has a stable of his own in California, where one of his horses looks over his shoulder.

current shortage of consumer goods to make the "most exclusive junk shop" in Menlo, Calif., a paying proposition. Teamed with her father, a veteran of World War I, she buys and sells everything except guns and clothing. Miss Husel and her father gather in discarded furniture, toys and hardware, give the stuff a thorough remodeling, and find the customers waiting for the paint to dry.

An Army-trained physical therapist, technician, Virginia May Kahr decided the beauty business would be a good one. She opened a shop in Sausalito, across the Golden Gate from San Francisco, and the money has been rolling in ever since. Enterprise hasn't been limited to the GI Jills. John R. Curry, who even found a way to ride horses in the Seabees, is riding horses for fun and profit.

Curry was a Texan before the war. The Seabees shipped him to Guadalcanal when the fighting was hottest there, and he managed to capture three Jap horses running loose in the jungles. "They came in mighty handy for messenger work," he says.

Malaria sent him to a Navy hospital at Livermore, Calif. He liked the country and decided to stay; a GI loan set up his riding academy near Oakland. The "ranch" opened a year ago with a dozen horses. Today the stable houses 53, business is booming and Curry is planning to start a boys' school. Shortage of building materials is the only thing holding him back.

A stretch in the service was just an interruption in the career of Charles Henry Scull, but it has been the means of making him his own boss much earlier than he expected. Scull studied landscape design at the University of California before the war, then turned his attention to the science of plant culture. After the war ended, he heard of a chemical called "2-4-D" that would kill weeds without harming useful vegetation. So he decided to become a professional weed-killer.

Nevada. He's even thinking of buying a helicopter for large-scale weed killing.

Fox-hole dreams of good things to eat got Dominic L. Lamonica into the mushroom business—that and the challenge of another's failure. Lamonica heard of someone who had gone broke trying to raise mushrooms, "so I thought I'd take a whack at it." With his wife as his working partner, La Monica worked hard and long, studied all he could about growing mushrooms.

Today's Lamonica expects to have his GI loan paid off inside of a year and a half. Then he hopes to start expanding. "I want to begin freezing mushrooms as soon as possible," he says. "Then I'll branch out into handling frozen frog legs and snake meat. Strictly the high-class trade—that's where the money is."

"Strictly high-class," says Dominic L. Lamonica, peeling a mushroom. He says he dreamed about the mushroom business in a fox hole.

Award for Proficiency

Mrs. Catherine Ryan, daughter of Mr. and Mrs. William Cashman, of Houstonia, is the one hundredth person to be awarded the certificate of proficiency for successful completion of the REA course of bookkeeping and accounting offered by that organization.

Mrs. Catherine Ryan

The certificate was presented to Mrs. Ryan last Thursday morning by John W. Bear, of Webster Groves, field auditor for REA out of the Washington office. Present also were Thomas J. Raines, president of the board; Mrs. Edward Heffernan, secretary-treasurer, and Leland M. LaVelle, manager.

Mrs. Ryan, whose husband, E. J. Ryan, is deceased, resides with her three children, Patricia and Patrick, twins, aged 11 and Jackie, 10, at the home of her parents in Houstonia.

The REA office is located at Fifth street and Osage avenue. It operates in Pettis, Saline and Benton counties with, at present, 450 miles of line serving approximately 1,400 members. There are now 143 miles of line under construction which will serve 350 members. There are four sections of lines mapped and submitted to REA for allotment. One allotment is for \$348,000 for the construction of 240 miles of electrical lines to serve 669 signed members. As fast as materials are available this project will be carried forward for complete area coverage to bring electricity to all unserved farms.

Looking Backward Forty Years Ago

The first car of the street railway company to run through to the Missouri Pacific shops left the downtown district at 9:30 o'clock this morning. It was in charge of Motorman Frank Helsley and Conductor George Webster. Superintendent Hamner announced that work on the state fair grounds tracks would be completed this week.

The Missouri state fair board in a meeting decided on having Governor's day at the 1906 fair on October 2. It was also ordered that an invitation be extended to the National Guards, Flambeau club and various political organizations to participate in the exercises on that day.

John A. Ready, formerly of this city, but for some time past touring the country with his son, John A. Ready, Jr., writes from Bedford, Pa., they will arrive Saturday for a visit before going to Arizona to reside.

A miniature train, each and every part of which was made by employees of the various departments at the local M., K & T. car shops, is now on exhibition at the shops. It will also be placed on display elsewhere.

Rev. Abele Chairman of USO Drive

Rev. E. F. Abele, of Boonville, has just been appointed a district chairman for next fall's \$19,000-000 U. S. O. campaign, according to an announcement by Walter W. Head, Missouri campaign chairman.

Rev. Abele, whose territory will include Cooper, Howard, Pettis and Saline counties, is minister of the Evangelical church at Boonville.

At present, he is occupied with the selection of the various county chairmen in his districts, names of whom will be announced shortly.

"As I see it," he said, commenting on his appointment, "the U. S. O. this year is probably more important than ever before because trying to maintain morale among the armed forces is probably harder than ever before."

Anxious to Get Home

"Being in the service right now, with the war over and most of your friends discharged and back on the job wouldn't be much fun. These lads are as anxious to get home as the next fellow, and yet somebody has to do the job. Through the U. S. O. we must let these young men know that we appreciate their sacrifice—a sacrifice that is even harder to make in some ways, because we are not at war."

The purpose of the new U. S. O. drive, which will get under way late this summer, according to Rev. Abele, is to furnish funds for U. S. O. operation in 1947, its final year of existence. The national goal is \$18,000,000, a decrease of approximately \$25,000,000 from last year's figure. Missouri's quota is \$550,000.

Morale building activities of the U. S. O. work will be carried on for the benefit of those men and women who are still in the armed forces, those who are still in hospitals and those members of the "schoolboy" army who have just entered the service.

Three Cars Are Involved In Accident

Dr. Marcus Howard, Of Georgia, Suffers Injuries

A three-car accident occurred about 10:15 o'clock this morning on Flat Creek hill, three miles south of Sedalia on Highway 65, resulting in injuries being suffered by Dr. Marcus Howard, Dawsonville, Ga., driver of a 1941 Ford coach. Dr. Howard was taken to the Bothwell hospital by State Troopers Pete Stohr and Wayne Allman, where he was treated by Dr. A. L. Walter.

According to the State Troopers, Dr. Howard was driving south on Highway 65, evidently dozed at the wheel and his car swerved to the left side of the pavement side-swiping a 1937 Pontiac coupe driven by Rufe Feaster, Clinton, Mo., who was driving north. As his car struck the Feaster car he suffered a puncture injury to his left arm just below the elbow.

Third Car Involved
As the Feaster car came to an abrupt stop a 1941 Oldsmobile coupe driven by Lieut. Marvin Teel, Long Beach, Cal., headed north, crashed into the rear of the Pontiac. None of the occupants of the Feaster or the Teel car suffered any injuries other than being shaken up.

The Troopers reported more than \$500 damages resulted to the Feaster car, which was smashed in on the left side and the rear. Damage to the Teel car was estimated at about \$200 to its front end, while the car of Dr. Howard was believed to have been damaged to the extent of about \$300 to its front end and left side.

Dr. Howard was arrested on a charge of careless and reckless driving by the Troopers.

This afternoon he pleaded guilty to Justice of the Peace A. M. Harlan and was fined \$5 and costs.

New Minister Comes to City

The Rev. Paul W. Willard, pastor of the Free Methodist church, Thirteenth street and Marvin avenue, is being transferred to Hannibal and has been succeeded here by the Rev. R. L. Lineback, who comes to Sedalia from Joplin.

Rev. Lineback, Mrs. Lineback and their 14-year-old son, Roy, will occupy the church parsonage at 1702 South Montgomery avenue.

Rev. Willard, Mrs. Willard and two-year-old son, David, leave Friday for Hannibal.

Former Cavalry Pvt. Heads GAR

INDIANAPOLIS, Aug. 29.—(P)—John H. Grate, 101, of Atwater, O., a cavalry private who served under General Phil Sheridan, today was elected commander-in-chief of the Grand Army of the Republic.

The 80th annual encampment—attended by 11 Civil War Union soldiers—closed with election of officers and announcement that the site of next year's meeting would be selected by the executive committee.

Births

Son, born to Mr. and Mrs. Wayne R. Beal, 717 East Fifth street, at 12:15 o'clock this morning at Bothwell hospital. Weight, 8 pounds, 9 ounces.

Daughter, born to Mr. and Mrs. William Hill, 2500 South Collins avenue, at 6:42 o'clock Wednesday night. Weight, 6 pounds and 12 ounces.

Investigate Ku Klux Klan

HARRISBURG, Pa., Aug. 29.—(P)—Governor Edward Martin today directed state police to investigate the Ku Klux Klan in Pennsylvania.

The executive ordered the inquiry upon receipt of a request for such action from Justice Meier Steinbrink of the New York state supreme court. Justice Steinbrink acted as chairman of the board of directors of the E.N.A. Brith anti-Defamation League.

Before arrival of the justice's letter, Martin announced "I have, on many occasions, publicly expressed my vigorous opposition to any un-American organization."

Justice Steinbrink in asking an inquiry, cited what he said was "an open letter to the public" from the Franklin county, Pa., Klan published in the Chambersburg, Pa., Public Opinion last Friday and urged the Pennsylvania governor "to direct the investigative and prosecutory forces of the state" to proceed immediately against the Klan.

The Franklin county Klan, Steinbrink said, was inciting race hatred by falsely claiming in the advertisement that "if the Negro gets his vote they will turn quickly on those who held them down."

Two Divorce Cases Filed

Two petitions for divorce were filed in the office of the circuit clerk today.

One petition was by Ferné Mahan against William R. Mahan. It stated the couple was married November 5, 1940 and lived together until August 16, 1946. General indignities were alleged.

F. F. Wesner was attorney for the plaintiff.

Ophelia Romig filed a petition for divorce from Lloyd W. Romig. The petition stated that the couple was married November 2, 1932 and lived together until September, 1943. General indignities were alleged.

The plaintiff asked for the custody of their minor child, Evelyn Maxine Romig. F. F. Wesner is attorney for the plaintiff.

Yacht Wrecked, Crew Missing

SOUTH HAVEN, Mich., Aug. 29.—(P)—Bits of wreckage from the yacht Verano were spotted in Lake Michigan by a coast guard PBY plane today but no trace of her crew had been found up to 18 hours after the craft mysteriously sank in rough seas.

The PBY reported sighting what appeared to be the top of the yacht's cabin floating four miles northwest of where the boat went down last yesterday.

A motor lifeboat participating in the search was dispatched to the scene.

The 92-foot vessel, owned by Maynard Dowell, Park Ridge, Ill., manufacturer, went down "without a sign of life aboard" three-quarters of a mile off shore north of here at 5:52 p. m. (EST).

The Verano, which seamen said cost perhaps \$100,000 to build, left Chicago early yesterday for Holland, Mich., where she was to get repairs.

Aboard were Chester Granath of Chicago, an employee of Dowell's company, and an engineer and cook known as "Fred" and "Ben." Guardsmen said Granath was described to them as an experienced sailor.

Shore watchers saw the Verano in trouble seven and a half miles north of here, but already awash, she went down stern first as coast guardsmen who sped to her side were about to fling a line aboard.

Intangible Tax Deadline Pushed Back

JEFFERSON CITY, Aug. 29.—(P)—Payment of Missouri's 1946 intangible tax will not be delinquent until November 1, although the deadline for the new four per cent tax on intangible property legally is September 1 this year.

Haskell Holman, in charge of collecting the tax, said the deadline was pushed back because forms for declaring intangible yield were mailed out to county collectors only within the past two weeks.

The tax act, passed late last spring by the 63rd general assembly, was signed by Governor Phil M. Donnelly barely two months ago. It will be collected by the new revenue department, which began operations on July 1. Holman said some delays were experienced in drawing up the proper forms for declaring intangible yields.

Forced Holdings Into Hiding
The old system of taxing intangible property called for a levy against the value of the property. Taxing authorities have said it forced much of the holdings into hiding to avoid the tax.

The old system usually brought the state somewhat over \$2,000,000 a year.

The new system, authorized by the 1945 constitution, excludes corporate stocks and some other intangible items from taxation, but in general requires owners to pay four per cent on the yield of their intangibles unless the amount of the tax is less than \$1.

Forms should be available in all counties now, Holman said.

Paratrooper Is Released

HOLLY SPRINGS, Miss., Aug. 29.—(P)—A paratrooper who went overseas with a murder charge hanging over his head was a free man today, the charges against him retired to the files at the request of the dead man's widow.

Staff Sgt. George Tabler, of Kansas City, Mo., who was charged with the 1945 slaying of A. D. Hill, Holly Springs night marshal, was released without bond in an action which Judge Taylor H. McElroy said was tantamount to a nolle prosequi of the case.

Prosecuting attorneys requested the move, explaining that witnesses in the trial were unavailable, and that "the grieving widow of the dead officer requested such action."

The 26-year-old paratrooper, who served in combat areas in the Pacific, was tried in March, 1945, for Hill's slaying, but the case resulted in a mistrial. Eight members of the original jury signed his \$1,500 bond.

After his release Tabler left for his home in Kansas City. He was accompanied by his mother, and his wife and two children.

Has Fractured Arm
Mrs. R. L. Lawson, 1701 South Brown avenue, had the misfortune to fall on some slippery stairs at the State Fair Sunday and break her left arm, sprain her right arm and bruise her face. She was treated by Dr. John B. Carlisle.

Seek Identity Of Body Found

MIAMI, Okla., Aug. 29.—(P)—Sheriff Dee T. Waters said today police departments throughout the midwest had been asked to check their "missing person" files in an effort to identify the body of a well-dressed man who was slain and thrown into Grand lake.

The body, weighted down with a rock and window sash and containing \$1,842 in cash in a money belt, was found Tuesday partially submerged in shallow water of the lake near Wyandotte. Constable Roy Roberts reported the victim had been shot through the head and beaten, and a coroner's jury termed the death murder.

The sheriff advanced a theory the dead man may have been a tourist passing through on Highway 66 and possibly was robbed and killed by a hitchhiker.

Long Series Of Documents On Nanking

TOKYO, Aug. 29.—(P)—Conquering, near-berserk Japanese troops slaughtered 280,000 Chinese in their bestial "rape of Nanking" in 1937, the war crimes tribunal was told today in a long series of documents from those who lived through the weeks of horror.

"This was a tragedy the like of which never has been known in history," said a Chinese report, reading to the court which is trying former premier Hideki Tojo and 26 others for war guilt.

Japanese civilian authorities, the report said, were unable to halt the rampaging victorious troops from rape, robbery, looting, murder and arson.

Horried at Orgy
A report by Nelson T. Johnson, American ambassador to China at the time, said Japanese officials "were horrified when they saw the orgy of drunkenness, murder, rape and robbery," but failed to make any impression on the callous military commander who deliberately turned loose his men.

One Nanking foreigner, J. H. McCallum, testified by affidavit that "there were 1,000 cases of rape a night, and many by day." His diary notation dated Dec. 19, 1937, read:

"This is a hell on earth. It is a story too horrible to relate. People are hysterical. Women are being carried off every hour of the day and night."

He said he watched one Japanese soldier smothered a baby to death because it whimpered while its mother was being raped.

Stolen Plane Is Located

PERRYVILLE, Mo., Aug. 29.—(P)—A two-passenger monoplane which had been reported stolen from a St. Louis county airport last Sunday, landed here yesterday and the pilot, identified by the Missouri Highway Patrol as George A. Andrews, 24, of Houston, Texas, was placed under arrest.

State Trooper R. A. Hollman said the man was apprehended when he landed to refuel and quoted him as saying he refueled here Monday, after flying to Memphis, Tenn. He will be turned over to federal authorities, Hollman said.

The owner of the plane, Edward Lee, of Houston, said Andrews accompanied him on a flight to St. Louis after Lee had met Andrews casually at a Houston airport. Lee came to St. Louis to visit his mother, who has been ill. Andrews and the plane disappeared last Sunday, Lee said.

Miss Effie Norton has arrived from Boulder, Colo., and will teach the third grade at Mark Twain school.

Ends 3-Weeks Nosebleed

PHILADELPHIA, Aug. 29.—(P)—The three-weeks nosebleed of 19-year-old Clarence Zane subsided today.

Hennemann hospital officials reported the Bridgeton, N. J., gasoline station worker's hemorrhage responded to treatment overnight and he was resting comfortably.

Two transfusions were given the weakened youth last night and he previously had received several others at Bridgeton hospital, where efforts had been made to stop the flow.

Zane told hospital authorities the nosebleed began August 8, after he was struck in the face by a piece of brass tubing while at work.

Individual Income Record

WASHINGTON, Aug. 29.—(P)—Figures compiled by government experts today indicate that individual incomes will set a record of around \$165,000,000,000 this fiscal year—exceeding the booming war year of 1945 by \$3,000,000,000.

Navy Begins to Resemble Its Old Self as Reserves go Home And 'Chiefs' Take Over

The Navy "chiefs" are getting back their old responsibilities now that most reserves and specialists have been demobilized. These two, aboard the USS English, a 2200-ton "can," keep careful watch on engine-room gauges during a run off the east coast.

By DOUGLAS LARSEN
NEA Staff Correspondent

WASHINGTON — (NEA) — They're giving the navy back to the "chiefs."

It has long been an old saw that the backbone of the navy is the chief petty officer. The war changed that. Ensigns, lieutenants and commissioned "specialists" took over sections and responsibilities that traditionally belonged to chiefs. Many chiefs were given commissions.

With the first year of peace the navy is beginning to resemble its old self.

There are other significant changes all over the navy, too, which have taken place since V-J Day.

Discipline is getting tighter. Yeomen no longer call lieutenants by their nicknames. There isn't the informal camaraderie that existed between junior and senior officers during the war. It existed among the more numerous reserve officers who never quite seemed to grasp the full significance of relative rank instilled in the regular navy officer. And the chances of the seaman second being promoted to lieutenant commandant's boss after the war aren't nearly as great any more, either.

The "USNR" after names—stamping a man a reserve—is now practically extinct on active duty navy rolls. Although the navy encouraged reserve officers in special categories to stay, few remained who didn't plan to make the navy a career. A few are back in relative civilian capacities, however.

It is no secret that the life of a navy officer during peace is pretty good. Homes on navy bases are extremely comfortable and sea duty breaks the monotony. The social life is gay. With the rigors and restrictions of war rapidly disappearing there has been a fast return to that kind of existence. The one exception is that by orders of the chief of naval operations senior officers will have to leave to make more with the public than they had a habit of doing before the war.

One of the most pressing questions of the day for navy officers concerns when they will be returned to permanent rank. They all received temporary promotions during the war. One of the most extreme cases is a rear admiral whose permanent rank is that of lieutenant (jg). It's not pleasant to contemplate a cut in pay these days with prices going where they're going.

It is rumored that the navy has a plan to keep everybody at his present rank with few rank reductions. This would be done by keeping officers in their present rank for the length of time it would ordinarily take them to have reached it and be promoted.

One of the most unpopular organizations in the navy today among older officers is a body known unofficially as the "plucky board." It is the duty of this board to force the over-age higher ranking officers into retirement. This process is already underway.

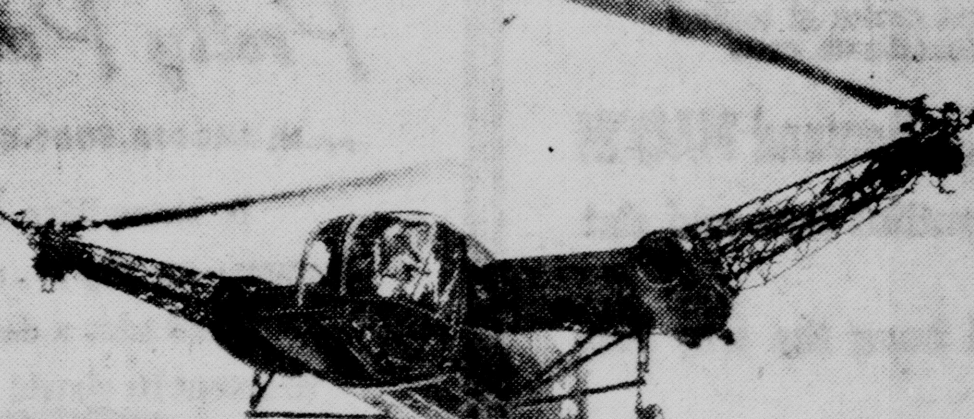

The war, however, did change some of the navy's old ideas of officers' duties. It is no longer considered a maxim that any one officer should be capable of doing all things. Although it has gotten rid of most of its "specialists," it is recognized that modern warfare is too technical for any one officer to be an expert in all branches.

This change in theory of what an officer should be has also led to a revolutionary innovation in navy officer education. It is called the "chief petty officer school."

A team headed by RFC director George E. Allen, lost out to the Truman outfit. Allen's group hooked 20 fish weighing 75 1/2 pounds. The president's crew.

The presidential yacht Williamsburg leaves at dawn tomorrow for Washington, via Hampton Roads. Mr. Truman plans to be in Washington at 5 p. m. (EST) Monday. The schedule calls for a landing at Hampton Roads at noon Sunday.

New Concrete Block Factory

The Fraser-Robbins Manufacturing Company, which makes interlocking concrete blocks, will begin operation in Sedalia in about thirty days. The building is already under construction near the Katy stockyards, machinery is ready and production will start about the first of October.

J. H. Robbins, a former Bolivar Mo., business man, and Mrs. Robbins have already located in Sedalia, and are at present residing at 512 East Fourth street. E. R. Fraser, the other partner in the new factory, and Mrs. Fraser, will come here in the near future. Mr. Fraser was also a business man in Bolivar.

Mr. Robbins and Mrs. Fraser are with a firm from the east, locating factory sites in the midwest and were given the choice of the entire state of Missouri, including Kansas City, St. Louis and St. Joseph, with the exception of Springfield, where a factory was already located. The two Bolivar men have been looking since the first of the year and decided on Sedalia as the best location.

Mrs. Robbins has accepted a position in the ready-to-wear department of the C. W. Flower Dry Goods company.

Mr. and Mrs. Robbins, who have been in Sedalia for the past month, are well pleased with the city. They have found people here unusually friendly and cooperative, Mrs. Robbins said.

Stock Market Comes Back

NEW YORK, Aug. 29.—(P)—The stock market negotiated a selective comeback today following three reactionary sessions in which the averages hit new lows since last October.

Dealings slackened after a fairly fast start and the ticker tape, late on both the Tuesday and Wednesday selloffs, frequently was at a standstill. Early gains running to a point or so, were reduced in most instances and scattered minus signs persisted at the close. Transfers of around 1,000,000 shares were only about half the volume of the day before.

American agricultural chemical and interstate department stores advanced on a few sales following extra and increased dividends. Ahead were Bethlehem, Santa Fe, Southern Railway, Goodrich, American Smelting, International Nickel, Allied Chemical and Eastman Kodak.

American Telephone slipped, along with DuPont, Chesapeake & Ohio and Standard Oil (N. J.) Bonds steadied.

Grains Are Firm
CHICAGO, Aug. 29.—(P)—Grains exhibited firmness today in the wake of an advance in prices, cool weather over much of the midwest and an announcement of higher ceilings for livestock than those formerly prevailing.

Most of the gain was established at the opening on commission house buying, after which the market ruled a little lower through the close. Near-by deliveries showed most strength as the box car shortage was holding down movement of grains to terminals.

Cash markets were generally steady. Offerings of corn by the country expanded, purchases on a to-arrive basis. Wheat finished 1/4 lower to 3 cents higher. January \$1.95 1/4, corn was unchanged to 1/2 higher. January \$1.54 1/4, and oats were ahead 1-1/2, September 75 1/2-1/4.

Sessi's Homer Beats Giants in Night Game

Manager Eddie Dyer
Picks Right Pinch
Hitter to Put Cards
Further Ahead

By Joe Reichler
(Associated Press Sports Writer)
Manager Eddie Dyer's knack of picking the right pinch hitter at the right time has moved the fast flying St. Louis Cardinals into a game and a half lead over the Brooklyn Dodgers in the sizzling National league pennant race.

Dyer put the finger on Rookie Walter Sessi last night and the young outfielder, who had connected for only one hit in 11 official times at bat, came through with a two-run ninth inning homer which gave the Redbirds a 3-2 victory over the New York Giants and a sweep of the day and night doubleheader at St. Louis.

Earlier in the day, the Cards had broken their first place deadlock with the Dodgers by out-slugging the Giants 13-8 while the Dodgers were bowing to the Chicago Cubs 4-3.

Sessi, whose dramatic clout in the second game was the first four-bagger of his major league career embracing parts of two seasons, swung for relief pitcher Al Brazzle after Marty Marion had singled with two out in the ninth. With the count one ball two strikes Sessi sent Bill Voiselle's fourth pitch sailing against the base of the light tower in right scoring behind Joffre Cross, who ran for Marion.

Two Cub runs in the last of the ninth proved the Dodgers' undoing, a few minutes after Pee Wee Reese's eighth inning triple had apparently won for Brooklyn. Trailing 3-2 in the ninth, the Braves tied the score on Peanut Lowrey's single followed by Marv Rickert's double. Hank Behrman, who relieved Hal Gregg in the seventh, passed Bob Scheffing and Lou Stringer stung him for

a payoff double that scored Rickert with the winning run.

The New York Yankees handed 22-game winner Bob Feller his tenth defeat when Ernie Bonham shut out the Cleveland Indians 4-0. Feller struck out only four batters in seven innings.

In another night game, Orval Grove and the Chicago White Sox shaded Bobo Newsom and the Senators in Washington 2-1 in 12 innings.

With Denny Galehouse pitching two-hit ball, the St. Louis Browns shut out the Athletics in an after dark game at Philadelphia 7-0.

Cincinnati and the Braves divided a doubleheader, Johnny Sain recording his 15th victory in the 8-4 opening Boston success and Ewell Blackwell registering his fifth shutout in the Reds' 2-0 victory in the nightcap. Detroit finally beat the Boston Red Sox after nine straight losses at Fenway park, downing the American league leaders 7-2.

The Philadelphia Phils shoved Pittsburgh deeper into the National league cellar with a 4-1 night game triumph.

KANSAS CITY, Aug. 29.—(P)—Two of Missouri's top high school athletes, Forrest Griffith of Lee's Summit and Bob Kline of St. Joseph, today were reported in Lawrence, Kansas, preparing to check out football equipment and enroll at the University of Kansas.

Mrs. John Griffith, mother of the Lee's Summit football, basketball and track star, confirmed a report that her son had gone to Lawrence to enroll at K. U. At St. Joseph, the parents of Kline reported he was out of the city, and would decide by tonight whether he would attend K. U. or the University of Missouri.

"Forrest decided to go to K. U. some time ago," said Mrs. Griffith. She added that Griffith had gone to Lawrence last Monday with Ray Evans and Bill Hogan, Jayhawk grid squad members. At Lawrence, Coach George Sauer said he did not know the whereabouts of Kline and Griffith, but added he would be "very happy to have both boys as members of my football squad."

Coach Don Faurot at the University of Missouri said he hated to see the youths leave Missouri, adding that the university made "every legal effort to bring them to Columbia."

Triplet had contracted with the Nuevo Laredo Jantas on a one-month trial basis at \$1,000. Pasquel ordered the agreement cancelled "in order to preserve the prestige of the Mexican baseball league x x x in view of the fact he had been expelled by the United States baseball on a charge of betting against his club."

Mickey's fall from grace came with his desertion of the Brooks upon his release from the navy last April. He announced he would play for Pasquel in the chili circuit and hesitated only briefly at the international bridge.

With \$12,500 bonus for signing and a reported \$15,000 a year contract for five seasons Mickey took a job as manager of Torreón and failed to return to the U. S. before the big league season started. Later he was shifted to the Vera Cruz Blues.

When he "got fed up" with the cactus country, Owen came back to the United States and asked to be reinstated. Commissioner A. B. (Happy) Chandler, who had ruled that all the border jumpers would be barred for five years if they were not back in the big league fold for the season's first game, denied Mickey's appeal.

Now a Missouri farmer, Owen said he might make a personal appeal to Chandler but nothing came of it. Tonight, his baseball career apparently behind him (he's 30 years old), Mickey was scheduled to come in from his farm to make his debut as a soft-ball player. He was billed as the catcher on an all-star team against the Knights of Columbus, regional tournament winners.

Junior Legion Wins 20 To 1

The Junior Legion baseball club went "all out" Wednesday night against the Higginsville Junior team, at the Liberty Park diamond and won the game with a twenty to one score over the Higginsville club.

Manager Thomas said that he thought the game was good until the sixth inning. In this inning the Sedalia team chalked up thirteen of their twenty runs. Thomas used all of the men in the lineup during the game.

Joe Imhauser pitched for the local club and allowed two hits and struck out twelve of the opponents. Both of the hits were in field. Barbour did the catching for the Legion.

Ralph Fall, who played his first full game Wednesday was the leading hitter. In six times at bats, he got two bases on balls and on base on a hit batsman. Ralph will play on the Legion team next year and will probably start in many of the games.

Sunday the Junior Legion will go to Montrose for a game and then Monday will journey to Falls City, Neb.

Erv Dusak and Walter Sessi, Cardinals—Dusak drove in four runs with two homers in first game 13-8 victory over the Giants. Sessi's pinch hit, two-run homer with two out in the ninth won the second game 3-2.

Marv Rickert, Cubs—Hit a double and triple to drive in two runs, his ninth inning double tying the score and setting the stage for a 4-3 win over the Dodgers.

Ernie Bonham, Yankees—Blanked Bob Feller and the Indians with seven hits and beat Cleveland 4-0.

Denny Galehouse, Browns—Limited the Athletics to two hits in 7-0 shut-out job.

Ewell Blackwell, Reds—Registered his fifth shutout victory with a 2-0 win over the Braves.

Tim Lincecum, White Sox—Tripled to open the 12th and scored on Luke Appling's fly with the run that beat the Senators 2-1.

Drawing Cards

Although they escaped from St. Louis, the Dodgers aren't safe yet. Three of the eight shutouts they have absorbed this season were at Chicago's Wrigley Field, and it leads you to wonder about the quality of amateur golf when a Brooklyn detective who swings crookedly clear the college football atmosphere qualifying honors. At least there'll be a lot of new names in the Baltimore tourney.

Two former Kansas football captains, Dave Schmidt (1945) and Warren Reigle (1945) will be battling for starting jobs at the end of this year's Jayhawk team.

Ramblers Beat Jeff City 3-2

Sedalia's Am. Legion Ramblers defeated the Jefferson City Tweedies at Jefferson City last night by the score of 3 to 2. Lefty Green on the mound for the Ramblers pitched a nice game allowing only 7 hits and walking only one man.

The Tweedies scored one run in the second inning on a double and single and another in the third on a triple and single. Green then shut them out allowing only three hits in the last six innings.

Locktoll, right hander for the Tweedies, pitched a good game for seven innings allowing only one run and six hits. He then weakened in the eighth allowing one run on two hits and in the ninth, one run on an error, a double and single.

The real economy pavement
is CONCRETE
Hundreds of towns and cities throughout America have invested street funds with foresight by building fine-looking, comfortable-riding, long-lasting concrete streets.
Concrete is safer to drive on; skid-resistant wet or dry—makes the whole neighborhood more attractive—protects taxpayers by guarding against future burdens of excessive maintenance and frequent replacement. Concrete streets are far cheaper to own than so-called "low-cost" streets with their ever-increasing repair bills.
Don't be satisfied with inferior surfaces. Urge your city officials to build with safe, economical concrete—the low annual-cost pavement.

New Silvertowns "Meet Taxi Requirements"

"Rain or shine, year in and out, 24 hours of the day, taxis serve the public," says Mr. Thomas A. Ballantine, President of Yellow Cab, Louisville, Ky. "Safety, dependability, and economy are the watchwords of successful taxi operation. B.F. Goodrich Silvertowns meet these requirements."

For Safety, Economy, and Mileage choose the tire that OUTWEARS PREWAR TIRES

One of the taxi fleets that tested the new B.F. Goodrich Silvertown before it was offered for public sale was Yellow Cab, Louisville, Ky. In addition, it was tested on police cars and the B.F. Goodrich test fleet over millions of miles in all kinds of weather under severest conditions, and even at high speeds. All these tests supported Mr. Ballantine's findings that: "... their wider, flatter tread gives our cabs better traction and surer, safer stopping. The stronger cord body means fewer interruptions and service stoppages. And in

actual mileage, tests on our fleet prove they OUTWEAR PREWAR TIRES. Because Silvertown tires cover more ground, our cabs can, too, without interruption."

We know you'll want these tires for your car. So to be on the safe side, see us today.

World Court To Have Say Over Our Problems

By James Marlow

WASHINGTON, Aug. 29.—(P)—This country has agreed to let the World Court have some say over some of our problems with other nations.

This, like our joining the United Nations last year, is another step away from isolation. It took us 25 years to make this step.

The court's purpose is to try to settle international disputes—legal disputes—by international law.

By this legal means of ending a quarrel nations may be less inclined to leap at one another's throat.

The court—called the international court of justice—is part of the United Nations machinery for keeping peace.

All nations which became members of the United Nations automatically became members of the court.

But only those nations which specifically agreed to let the court have authority over some of their problems could sue, or be sued, in the court.

Into Ditch to Avoid Dogs

Walter P. McCord, 720 South Massachusetts avenue, received bruises and slight abrasions early this morning, when his truck ran into a ditch about 13 miles north of Sedalia on Highway 65.

McCord, maintenance man for a petroleum corporation, was dodging two dogs when he lost control of the truck and it went into a ditch.

According to witnesses, he was driving north in his truck when two dogs ran out on the highway.

He swerved to the west side of the pavement and in turning back evidently lost control and the car went into the ditch.

McCord was thrown out of the cab of the truck and when aid reached him he was in the ditch just below the cab.

He was pulled out from under the cab and an ambulance from Marshall called. He was taken to the Bothwell hospital, checked over and sent to his home.

Mayor Bruce J. Carl, of Columbia, and T. M. Walden, fire chief at Columbia, were coming to Sedalia and saw the wreck. They called for the ambulance and had him sent to Sedalia. The accident occurred about 9 o'clock.

Twenty Nations Accept

Twenty nations, including this country and Britain, have agreed to accept the court's authority, or jurisdiction.

Others — like Russia, China, France — have not agreed, yet. Russia couldn't walk into the court and sue us, nor could we sue Russia, since we accept the court's jurisdiction but Russia doesn't.

But we've put pretty strict limits on the kind of jurisdiction the court can have over us.

For example: The court has no authority over problems which we consider domestic, like tariffs or immigration.

We've agreed to let the court have jurisdiction over legal disputes, only. For example: interpreting a treaty if a dispute arose with another country.

To Security Council

(The shooting down of American planes by Yugoslav airmen, for instance, wouldn't be a problem for the court. We'd take it to the U. N. security council. (There'll probably be plenty of

arguments over what is a case for the court, and what isn't.)

Here's the background of our decision to let the court have jurisdiction.

A world court, called the permanent court of international justice, was set up side by side with the old League of Nations in 1921.

The senate kept us out of the league and the court although every president since 1920 had urged that we join the court.

That court's purpose was the same as the present one.

To join, a two-thirds vote of the senate was necessary. No more than a majority of the senators ever voted to join. We stayed out.

Then U. N. succeeded, the League of Nations. The U. N. set up the new world court as successor to the old court.

Meets in The Hague
The new one, like the old one, meets in The Hague, Holland. It has 15 judges, chosen by U. N. from a group of outstanding world lawyers.

(Green H. Hackworth is the American on the court. No nation

can be represented by more than one judge.

(The judges are supposed to be above nationalism and give their decisions impartially.)

Just as in the case of the old court, to accept the new court's say-so, a two-thirds senate vote was needed. This came Aug. 2.

This week President Truman issued what is called a declaration saying we accept the court's jurisdiction.

This was the formal, final action closing the deal for us.

Keep FSA Loans Paid Ahead

WASHINGTON, Aug. 29.—(P)—Thirty per cent of all Missouri farm operators have borrowed money from the Farm Security Administration since 1935, and have an "excellent" record of repayment.

The agency's records show that short term operating loans have been made to more than 39,400 Missouri farmers, and in addition 1,510 have received 40-year loans during the last fiscal year to buy farms.

As of June 30, this year, Missourians had borrowed \$37,112,043 in rehabilitation funds with which to improve and operate their farms. They had repaid \$27,514,083 in principal, or 96 per cent of the amount due. In addition they paid \$4,171,644 in interest.

On March 31, 1,006 farm ownership loan borrowers in Missouri who were following the variable payment plan, had paid 72 per cent more on their loans than the amounts required to keep them current.

Gave Officers Merry Chase

NORTH BERGEN, N. J., Aug. 29.—(P)—An attractive 18-year-old girl swimming nude in the Hudson river gave two policemen in a rowboat a merry chase for an hour and a half today.

Lieutenant Arthur J. Foley and Patrolman Frank Robbins of the Hudson county police, who finally coaxed her into their craft, said she laughed at them at she sported in the river, swam under the hulks of sunken scows to elude them, and then rocked the boat and swished water at them at they rowed her to shore.

The policemen said the girl, whom they identified as Susan Zakar, of Fairview, told them she was practicing to swim to English channel.

The girl, dressed in overalls and slippers borrowed by the policemen from boat repair men on shore, was turned over to her mother. No charge was lodged against her.

Likes Sailors

Uncle Sam thinks 21-year-old Mary Lou Llewellyn, above, went a bit too far in her liking for sailors. A U. S. commissioner in Philadelphia held her in \$300 bail on charges that while married to one sailor, she wed another, collecting allotments from both. She is also said to have married a merchant marine seaman.

Boat-Builder to Home-Builder?

Higgins Would Mass- Produce Cheap New Houses If U. S. Produces Cash

Going up: A sample of the "thermo" construction boat builder Higgins wants the NHA to back is put together at his New Orleans plant. Built in circular tub can be seen at lower right.

Sample package: Completed Higgins house stands in shadow of New Orleans factory that turned out landing craft during war.

By DOUGLAS LARSEN
NEA Staff Correspondent

NEW ORLEANS, La.—(NEA)—Although there are hints that the government might go after Andrew J. Higgins' wartime boat-building company over war contract litigation, Higgins is after the government himself these days on another tack.

He has shifted his talents from the production of amphibious

landing craft, which his company turned out en masse during the war, to mass production of low cost houses, and Higgins would like the National Housing Agency to finance his venture into this field in connection with the veterans' emergency housing program. In other words, if the government produces cash, Higgins will produce houses.

The Doctor Says

Infected Foods Carry Deadly Diseases

By WILLIAM A. O'BRIEN, M. D.
Written for NEA Service

The danger of the spread through meat of certain diseases is eliminated by the examination of animals before and after they are slaughtered, but pasteurization of good milk is the only satisfactory method of preventing the spread of disease in dairy products.

Food spoilage is most commonly caused by the action of germs which have not been destroyed in the preservation process. Bacteria require moisture, warmth, and protein-food materials for growth, and foods which contain starches and sugar ferment as a result of bacterial growth.

Proper refrigeration retards germ growth and keeps the number of germs at a harmless level. Arichina and the cysts of tapeworms in meat are killed by keeping the meat at a temperature of -10 degrees F. for three weeks.

Quick-Freezing Is Safe

Quick-freezing is one of the most valuable methods of preserving food and preventing bacterial development. Quick-frozen foods lose little of their nutritive value, but they must be eaten shortly after thawing out and they must not be refrozen.

Canning foods involves the destruction by heat of all germs which are present and the prevention by an airtight seal of the entrance of others. Home-canned meats and vegetables should be reheated before they are served.

The most serious infection from home-canned foods is botulism. This germ develops a deadly poison as it grows in the food, and it multiplies only in the absence of air.

Outbreaks of botulism have been traced to fish, ham, sausage, beef, fowl, cottage cheese, string beans, corn, berries and peas.

The botulism germ is distributed in the soil throughout the Midwestern and Western parts of the United States. It is destroyed in food by heat, acid, or a 10 per cent solution of salt brine.

Unless non-acid foods, such as string beans and corn, are processed properly at home, they should be reheated for 15 minutes before they are tasted or eaten.

Oyster Danger Stopped

Infected oysters at one time were a cause of bowel infections, including typhoid fever. Oysters grow best in waters with a high

Higgins has a revolutionary house made with two completely new building materials, which have impressed NHA officials and experts who are studying them. NHA officials say the hints of war contract litigation involving Higgins will have nothing to do with their consideration.

Long-Lasting
In addition to its economy advantages of the new house, its designers claim, are that it is extremely permanent and long-lasting, attractive, easy to erect, easy to heat and its production won't compete with scarce materials.

It is made with steel "Thermo-Con" panels. They are sheets of low-carbon steel of various sizes upon which are baked a porcelain enamel facing by a process which fuses enamel on it. It has a high finish of any texture or color.

The second new product is "Thermo-Con." It is a lightweight concrete composed of Portland cement, water, sand and a secret chemical expanding agent discovered by Higgins.

The walls and partitions of the house consist of two panels of Thermo-Conel securely fastened together two and one-half inches apart. When the panels are all erected Thermo-Con is poured between the panels. The result, the designers claim, is a completely indestructible house requiring no repairs or painting. The Thermo-Con insulates, and is insect proof and fireproof.

The panels can be made into any size or shape structure.

A single story, two-bedroom house suitable for financing under the GI Bill of Rights can be built as cheaply as \$4,600, which is the entire cost of the completed building exclusive of builders' profit and cost of land, compared to a cost of \$6,653 for an identical house constructed of conventional building materials, Higgins engineers claim.

The house will require no internal plumbing or wiring repairs; these facilities have been built into the walls.

Seven Days To Build

It is claimed that the entire structure, with exception of the plumbing, electrical and some welding work on the room, may be built by unskilled persons. It will take a crew of eight persons seven days to complete a two-bedroom house 750-feet square.

Since the materials are considerably less bulky than ordinary building materials, a maximum of usable living space is achieved. An 18 per cent saving in floor space is claimed over frame construction, and a 25 per cent saving over concrete or concrete building blocks.

Another factor in the house's low cost, claimed by Higgins, is the economy of transporting the materials. The only articles which require transportation from the plant are the fabricated sheets and parts made of Thermo-Conel, and the expanding agent used in Thermo-Con. None of this requires a large amount of packing space. The cement, sand and water are obtained locally.

If Higgins can get the "go" sign from NHA soon, he claims he can be turning out 20 houses per day by January and by the following May he can have reached his maximum planned production of 270 houses per day. Expanded production facilities could increase that figure.

nitrogen content; left to their own devices, they will settle nearest a sewer outlet.

The United States Public Health Service now supervises the sanitary packing and shipping of shell-fish, including oysters, and they are no longer disease-spreaders.

Raw milk can spread disease germs picked up from animals or milk-handlers. Typhoid fever, scarlet fever, septic sore-throat, bowel infection, and diphtheria have been traced to raw milk.

More recently, brucellosis (undulant fever) and the staphylococcus infection (cream-puff poisoning) have been traced to milk products.

Animal-tuberculosis germs in milk have been practically eliminated by tuberculin tests of infected animals. This does not eliminate human-tuberculosis germs, which can be transmitted to raw milk by milk-handlers. Pasteurize and be safe.

QUESTION: My daughter has ringworm of the hands. When she swims in a pool her hands get better. What does the water contain which might account for the improvement?

ANSWER: The water contains chlorine. But it would not be advisable for an individual to put chlorine in concentrated form on his hands. Chlorine is also used as a clothes-bleach, and it may be found in water for washing clothes.

THE GREATEST BAKING POWDER IMPROVEMENT IN 50 YEARS!

Improved WITH... FOOD CALCIUM

BETTER BAKINGS 3 WAYS!

- 1. BAKINGS LOOK BETTER...** The FOOD CALCIUM in the new KC permits more even distribution of the fine, active ingredients throughout the baking powder. This promotes more uniform action—gives bakings the light, smooth texture and inviting rich appearance everyone enjoys.
- 2. BETTER TASTE...** New KC assures full flavor of other ingredients—in your baked goods you get no soda taste from KC.
- 3. BETTER FOR YOU, TOO...** KC makes everything adding 2 to 3 times more FOOD CALCIUM than the fresh milk used in a baking, depending on the recipe. Thus KC joins milk as a fine source of this vital food element.

New Furniture Does Double Duty

Versatile furniture arrangements made possible by interchanging basic units are one company's contribution to the modern trend toward double-duty furniture. In the picture above, combinations of three units, the cabinet, grill-front case, and flat-drawer case, are used to add storage space along one wall. Flat case without drawer makes coffee table, left foreground. Units are attached by metallic connector rods through plastic-capped holes. Drawers can be substituted for cabinet doors and legs can be removed if housewife wishes to change appearance of furniture later.

Unique table hinged at the sides serves dual purpose as card table or twin-shelfed tea cart for use of today's hostess.

By Kay Sherwood
NEA Staff Writer

Double duty appeal of new furniture stems from ingenious designs which make every cranny of limited living space useful.

Multiple purposed and interchangeable furniture units developed by one company are as easy to add to or take from as a baby's house of blocks. Units include mahogany finished cases of five different sizes, drawers of varying width and depth, shelves, legs, bases and cabinet doors. With these a housewife can—using a penny, of all things, for tightening connector rods—assemble anything from a bedside table to a giant breakfast.

Plastic plugs cap holes on top and bottom and at sides of each unit. Unplugged holes serve as entry point for metallic connector rods which anchor units together, or for cords which lead out from cleverly concealed electric fixtures.

If space demands change, units can be disconnected and re-arranged, multiplied or subtracted or switched to new uses as easily as a child's knocked-down blocks are rebuilt.

Two-timing tables include twin-shelfed tea carts that double as dinner or card tables, coffee tables with tilting tops that serve as reading stands and utility tables that swivel up from wall hinges when extra space is needed.

A sofa that turns into a bed and a dressing table that is a dead ringer for a breakfast are double feature attractions for the living room. A full sized double bed unfolds from beneath the day-report cushions, while the smaller loveseats in this series shelter single beds. The breakfast pulls its modern day surprise with a sliding mirror and a drawer concealed under the desk top to hold cosmetics for its nocturnal chores.

New closet assemblies perform mathematical feats by doubling as walls, dividing one room into two and multiplying storage space. Combining the best features of custom-made built-in arrangements, these compartments can be ordered in a staggering array of sizes at prices geared to moderate budgets.

For drying tumblers dish towels should be long enough to wipe both the inside and outside at the same time and to cover the hands so that no finger prints are left on the glass.

The lima bean not only provides nitrogen for the soil but it is an important vegetable food for man as it is rich in vitamin B complex, has a high protein content and contains fats and minerals.

To prevent cookbook smudges, keep a sheet of transparent material in the book. Place it over the page you are using.

Crumble a dry newspaper, wet, and rub your glass with this instead of a cloth.

The Daily Washington Merry-go-Round

son is on a brief vacation, his column will be written by several distinguished guest columnists — today's by Paul A. Porter, administrator of the office of price administration.)

By Paul A. Porter
WASHINGTON, Aug. 29 — I want to use this space to write about one of the greatest living Americans. He is not now a candidate for office so what I say can do him no harm. I am the administrator of a temporary agency that has only one year to go, so I cannot justly be charged with attempting to curry his favor. And the further fact that no words of mine could add to his stature or diminish the luster of his distinguished career leaves me the justification that he is a fellow Kentuckian and my senator and I want to say what I think about him.

XXIV
"ROBERT, forgive me!" I pleaded. The words were inadequate. So was anything that I might try to do to recompense him for the long deception I had practiced.
"Why don't you take Corinna away?" I asked at last.
"You don't want Cecily to know?"
I looked back down the interminable, disconsolate years. "I've always wanted her to know. It's her right—and mine. She belongs to me. But Corinna—" I felt the tears stinging my eyelids. "Corinna has never been anything but kind to any one—she hasn't done anything to deserve such disillusionment. Take her away, Robert, so that she'll never guess."
Robert put out a strong hand and lifted mine from the door-knob. "But Corinna has already guessed," he told me. "Months ago."
It was as if he had struck me. The breath went rasping out of my lungs. I walked over to the desk and sat down.
"What does she think of me?" I whispered.
"Do you want it in Corinna's own words?"
"Please." I ventured to meet another blow.
"She said..." Robert's voice was lower than its wont, not quite as steady. "She said, 'Daddy, now I see why mother has always made things so wonderful for me at home. She didn't want me to take the beating that she's had to take all these years.'"
"Is that all?"
"That's the substance of it." "But didn't she—hate me?"
"Why should she?"
I laughed at the irony of that. "You should know the answer. How did you feel when you finally realized what you'd married? A

last need are even more greatly to be treasured.
I said, my lips close to his warm cheek, "Robert—I was such a fool not to know that what I had before wasn't love. Do you mind terribly that there was some one before you?"
"Yes," Robert acknowledged, "I do. I mind because you were hurt and there was nothing I could do to help you. Did Thorne know whose child Cecily was?"
"No. Della was afraid to tell him. Thorne might have made her give Cecily back to me."
"You knew he'd do that for you. And so you couldn't ask—when he needed her for his very life?"
"Oh, Robert, let's not talk about it again! It only makes me realize more desperately how much of Cecily I gave up. Will she despise me, do you think, when she knows?"
"I can't tell," Robert said, "I only remember that she came to you for help that night you hurt her. I think Cecily will learn many lessons from Val that will hold her back from judging you harshly."
"And Della?" This was an effort. "How unfair have I been to Della? She's spent so much on Cecily—besides the love she's given her—"
Robert said, "Della still has Thorne. Doesn't she owe you something for that? Suppose she has spent money on Cecily? She's never had to sacrifice even a small luxury to do it. The whole situation is too complex for any one to decide what is fair."
"I hope," I mused, "she'll be generous enough to try to love Val. I'm afraid she'll never get over her contempt for his 'background.'"
Della herself answered that for me two days later. She called to tell me that Cecily had telephoned her long distance. Val's formula had been tried by the Army and was going to revolutionize attack strategy, they said. Val might not get rich but the war would be over sooner because of him.
"Della," I said, after I had expressed the gladness I felt. "You and Thorne actually seem to be proud of him!"
"Well, for heaven's sake!" Della retorted impatiently. "He's ours, isn't he?"
THE END

no better statement of what I know to be Senator Barkley's political philosophy than this excerpt of Wilson's great address at the dedication of Congress hall in Philadelphia in 1913:
"Politics, ladies and gentlemen, is made up in just about equal parts of compensation and sympathy. No man ought to go into politics who does not comprehend the task that he is going to undertake. He may comprehend it so completely that it daunts him, that he doubts whether his own spirit is stout enough to attempt its great undertakings, but unless he comprehend it he ought not to enter it. After he has comprehended it, there should come into his mind those profound impulses of sympathy which connect him with the rest of mankind, for politics is a business of interpretation, and no men are fit for it who do not see and seek more than their own advantage and interest."
Famous Reconteur
I have watched Senator Barkley's career with deep interest since as a young newspaper reporter I covered his first campaign for the senate 20 years ago. I have known of his genius as a tireless campaigner. I have listened many times as he would draw upon his unlimited repertoire of stories which have made him the senate's most famous raconteur. I have known him as a friendly and tolerant man of great ability. But personal experience with Senator Barkley in the legislative crisis on price control this summer afforded me my first real opportunity to obtain a first hand knowledge of his great capacity as a legislator, as a lawyer and as a leader.
I was called to the White House when Senator Barkley and his associates of the Democratic leadership urged President Truman to approve the first price control bill. In earnest tones, Senator Barkley insisted that the president sign the bill. The president was obviously reluctant not to follow the advice of his party leaders. Upon analysis of the first bill's provisions, however, the president concluded he could

not approve it and with great courage he exercised his constitutional right of veto. Thus far and one-half months of bitter legislative battle resulted in a stalemate and the responsibility was turned back to the congress.
Barkley Backed OPA
Senator Barkley again shouldered the burden. A lesser man would have balked. With consummate patience and skill, he guided a new measure through committee, through the senate and out of conference. During sweltering Washington weather, he worked with the senate committee day and night and would take to his Washington home a full brief case and work some more.
At one midnight session of the senate, Senator Barkley arose to explain a highly complex pricing standard in the bill. His extemporaneous exposition read with such smoothness and precision in the Congressional Record that the OPA lawyers expressed amazement as to how Senator Barkley had found the time to master an intricate subject in such technical detail.
Praises Kentuckians
This episode is but one of many in the experience of the majority leader of the senate. But it illustrates a measure of the man's greatness. This amazing capacity for comprehension has been duplicated in congressional decisions on the United Nations organization, the British loan, atomic energy, veterans' housing and a host of other critical problems. And the results add up to the fact that Senator Barkley is one of the most effective liberals of our time.
Kentucky has provided the nation with its full quota of leadership in this administration. There is the distinguished chief justice, Fred M. Vinson; Wilson Wyatt, the veterans' housing expediter;

Priests Die In Auto Crash

Brother Of A Minister Also Killed In Accident

PAMPA, Tex., Aug. 29.—(P)—A Baptist minister has been charged with negligent homicide in connection with a wreck near here Tuesday night which killed the superior general of the Order of Discalced (Sholess) of the Catholic church, two priests of the order and the minister's own brother.

The dead: Father General Peter Thomas Siolo, 56, Rome, Italy, superior general of the Order of Discalced. Father John Baptista, Rome, Italy, secretary to Father Siolo. Father Joseph V. Cantavella, 52, O. C. D. of Oklahoma City, provincial of the Oklahoma and Texas province. Cono Marino, 48, Providence, R. I.

The Rev. Antonio Marino, 41, Baptist Minister of Mount Vernon, N. Y., has been charged with negligent homicide, according to Gray County Attorney Bruce Parker.

The priests were traveling west, the Marino car east at the time of the accident. The cars met in a head-on collision, and were demolished.

The cause was unexplained, but state highway officials investigating quoted Mr. Marino as saying "everything went blank" and he didn't remember incidents leading up to the crash.

Mr. Marino said he was driving into an electrical and rain storm at the time. Heavy rains which ended a long summer drought had been falling in the area.

The car in which the Catholics were riding was driven by Father Cantavella.

The priests were en route to the west to inspect Carmelite Monasteries and convents.

Mr. Marino is under technical arrest in his hospital.

The accident occurred near the town of Alamogordo, Tex., near Shamrock.

WARNING! 100 OUT OF 3 SUFFER WITH PIN-WORMS

Medical reports now reveal shocking facts about Pin-Worms. Over 30% of the people examined were found to be victims—often without recognizing the cause of their distress. Also, many do not know that science has at last found a way to deal with this ugly infection.

So watch for the warning signs that may mean Pin-Worms—especially the nagging rectal itch. And act promptly! Ask your druggist for JAYNE'S P.W., the medically-sound treatment based on a new, officially approved drug element. P.W. tablets are small and easy to take. They act in a special way to remove Pin-Worms.

Red Cross Hopes to Beat Hurricanes To Punch With Weather Bureau's Aid

WASHINGTON (NEA) — Let the hurricanes blow. The Red Cross and the weather bureau are ready.

This is the heart of the hurricane season. If and when a big blow strikes, the Red Cross expects to be on the scene this time, before — not after.

Weather bureau reports on all possible threats of disaster stemming from weather conditions are being fed into Red Cross centers throughout the country so that advance preparations can be made. Minute-by-minute storm reports will let the Red Cross know where to set up its shelters, where to assign extra medical and nursing personnel and where to start evacuating residents.

Today the organization's 2300 chapters are prepared, on short notice, to house and feed 4,500,000 disaster victims in 40,000 shelters.

Here is how it will work when the need arises:

The weather bureau picks up a storm report and watches it move slowly northward towards the southern coastal region of the United States. Observers, chartmen, and forecasters will "chaperone" its course and give it elaborate advance billing.

Danger Zone Alerted

Telephone reports of the storm's progress come night and day to disaster headquarters as the storm develops. These reports are relayed to area offices in Atlanta, Ga.; Alexandria, Va.; New York City; St. Louis, Mo.; and San Francisco, Calif. Area offices in the danger zone alert all chapters which in turn start making preparations and call out relief committees.

At the same time, trained disaster personnel are rushed from area and national headquarters to strategic points to get things started before the storm hits.

By the time the hurricane has arrived, so has the Red Cross.

The plan worked earlier this year when the Coast Guard and Navy in assault boats helped rush relief workers into flood areas along the Gulf coast. Even helicopters and "walkie-talkies" were used in some sectors.

Since 1880, there have been 158 major hurricanes and more than 600 floods within the U. S. In its growing battle against weather disasters, the weather bureau now maintains 550 airways stations and 250 off-airways stations. It has developed radar patterns of storms. A telemeter circuit has been set up between three hurricane forecast centers; Miami, Washington and Boston. The weather bureau even keeps track of areas that may be "ripe" for forest fires.

Ability of the Red Cross to move in more rapidly has been cutting disaster tolls during recent years. Death toll of the 1926-28 Florida hurricane was tremendous. In a storm just as violent last September, only four persons died. Volunteers, working 24 hours a day, succeeded in evacuating all residents from the Florida Keys in the storm's path. The new system is expected to provide even more complete advance information with which to plan relief work.

Kem Spent \$8,065 In Primary Campaign

JEFFERSON CITY, Aug. 29.—(P)—James P. Kem of Kansas City, successful candidate for the Republican U. S. senatorial nomination reported to the secretary of state Wednesday he spent \$8,065.38 in his primary campaign.

The items in the expense account covered expense of campaign lieutenants, printing, advertising, clerical and stenographic hire and lesser costs.

Rep. S. W. (Wat) Arnold of Chillicothe, who won the Republican nomination for congressman from the first district, reported campaign expenses totaling \$2,014.74, including \$1,141.56 for advertising.

Report Of Prowlers

L. L. Parks, 521 North Moniteau reported to the police that he has been annoyed by prowlers. The prowlers seem to run on a schedule, coming around 3 or 4 a. m. and about two or three times a week.

Off to a disaster: These Red Cross workers, taking their tip from the weather bureau, will try to beat storms to the punch by getting to the scene ahead of the big blow and beginning evacuation and other relief work before the storm can take its toll.

More Lumber For Housing

Squeeze Put On Its Use By The Army And Navy

By Sterling F. Green

WASHINGTON, Aug. 29.—(P)—Housing Expediter Wilson Wyatt Wednesday night put the squeeze on army and navy use of lumber and ordered lumber dealers to hold 80 percent of their supplies for veterans' housing.

To boost lumber yard supplies, Wyatt directed that saw mills supply each dealer with at least one-third more housing lumber than he has previously been able to claim in competition with other customers of the mills.

To cap a series of new controls over building materials which he called "drastic," Wyatt directed that 100 percent of all residential hardwood flooring and 85 percent of all mill work—doors, window frames and the like—be reserved for builders holding the "HH" housing priority.

Civilian Production Administrator John D. Small joined Wyatt in announcing the lumber actions.

Inter-Agency Conference
The decision to crack down on the military use of lumber came out of an inter-agency conference today. The decisions were two-fold:

First, effective at once, the military "MM" priorities used by the army and navy for construction of bases and barracks overseas will be "reviewed most carefully" by CPA to determine whether they can be postponed or the material procurement spread among several cities so as not to pre-empt the whole supply of any community.

Second, all military housing in this country will be similarly scrutinized and a rating no higher than the ordinary "HH" housing priority may be used. Heretofore, military housing in this country as well as abroad has carried the more potent "MM" priority.

Hardwood flooring manufacturers and dealers alike must reserve their full supplies of residential-type flooring for veterans housing or military orders. The residential type represents 90 percent of all the hardwood flooring produced in the country.

The action for increasing the flow of lumber from saw mills to lumber yards makes it mandatory that each dealer receive each month an amount equal to 10 percent of the total supply he had on hand January 1, 1942, or two carloads lots per quarter, whichever is greater, if the saw mill can supply it. Previously retail dealers could claim only seven percent.

Buy House Where Jesse James Slain

ST. JOSEPH, Mo., Aug. 29.—(P)—The house where Jesse James was killed 64 years ago has a new owner.

Now located on a tract several miles from the place where the outlaw was shot, the little frame building has been sold to George A. Miller, a motor car dealer, by Mr. and Mrs. Walter Meierhofer. Miller plans to build cabins on small tract sold with the house and to continue the old James home as a tourist attraction.

Peeper Forces A Woman To Disrobe

ST. JOSEPH, Mo., Aug. 29.—(P)—Police are seeking a "peeping Tom" who Tuesday night forced a woman to disrobe in her home and then stand beside an open window.

The man, who told the woman she "had better obey" because he had a gun, made an unsuccessful attempt to break into the home, but the woman's screams frightened him away.

Still Dress Alike; To be Nuns

PITTSBURGH, Aug. 29.—(P)—For all of their 19 years, twins Margaret and Marie Sullivan of suburban Knoxville have dressed alike—now they're going to continue the practice but in the garb of nuns.

On Sept. 7 the girls will exchange bobby sox and sweaters for the costumes of the Blessed Sacrament Convent at Cornwall Heights, near Philadelphia.

"It's going to be mighty lonesome," sighed their grey-haired mother, Mrs. Daniel Sullivan, but the twins said entrance in a convent had long been a cherished idea.

"We have had our share of junior proms, bowling parties, movies and dates, said one twin as the other nodded. "But our hearts have always been in church work, particularly missionary work."

A brother of the blue-eyed, brown haired twins, Jerry, 21, is studying for the priesthood, at St. Vincent's college in Latrobe, Pa.

Urge Baptist Leader Resign

FORT WORTH, Tex., Aug. 29.—(P)—Rev. J. Frank Norris, pastor of the First Baptist church here, Wednesday issued a statement critical of remarks about Soviet Russia attributed to Dr. Louis D. Newton, president of the Southern Baptist convention, and at the same time, in a telegram, urged Dr. Newton to resign.

Since his return from a 25-day trip to Russia, including a visit with Premier Joseph Stalin, Dr. Newton has delivered several addresses on conditions as he saw them in the Soviet nation.

Dr. Norris referred specifically to an address delivered Sunday at Atlanta, Ga., by Dr. Newton in which he later reported that he saw "every evidence of religious freedom" in the Soviet.

The telegram to Dr. Newton urged that he resign his post as president of the Southern Baptist convention immediately.

New Hike On Cotton Garments

OPA To Make A Drive On Black Market In The Meat Sales

WASHINGTON, Aug. 29.—(P)—OPA again boosted cotton textile prices tonight, as required by the new price law, presaging another one or two percent rise in the cost of cotton garments to consumers.

Cotton mill prices were raised two and one half percent effective tomorrow in the fourth increase since March. The total price climb this year on basic fabrics is over 30 percent.

Meanwhile the harried agency worked late to write higher livestock prices over the country, jibing with Secretary of Agriculture Anderson's ceiling recommendations—yesterday. The new ceilings will be announced tomorrow or Saturday.

Anderson recommended prices on pork \$1.40 a hundred pounds higher than the June 30 ceilings at Chicago, and on beef \$2.25 higher. Agriculture officials said this would mean two and half to three cents more at retail for pork and five and one half to six cents more for beef cuts.

The cotton price increase resulted from the provision of the new OPA law that cotton products reflect current costs of raw cotton or parity, which ever is higher. Raw cotton prices have been rising.

Textile prices therefore must be revised monthly OPA said, with clothing prices fluctuating with them.

Porter asserted tonight his agency will not "bail out" dealers who have withheld lead and lead scrap market on the "mistaken belief that ceiling prices would be raised."

He said in a statement that OPA does not plan to increase ceiling prices on the metal above June 30 levels as in the "foreseeable future."

He reported that while OPA granted a "substantial increase" in lead prices June 3, a number of sales were made during the price holiday last month at 9.5 cents per pound as compared with the 8.25 cents a pound ceiling price.

Drive On Black Market
An all out drive against black market operations in meat with an army of 2500 enforcement agents was mapped meanwhile by OPA.

It was learned that OPA Chief Paul Porter has selected Irving Gruber, an attorney, to lead the black market drive with a force double that used under former price ceilings.

"We plan a very vigorous drive and expect to stop all violations," Gruber told a reporter. "Our aim is to keep meat prices within reach of the general public through a rigid enforcement of ceilings at all levels."

Field offices throughout the United States have recruited the additional meat enforcement agents, mostly from war veterans, and the time since controls expired on June 30 has been used to train these men.

The full staff of 2,500 meat enforcement agents will be reached in mid-September, Porter said.

OPA officials made an informal agreement with congressional critics and the meat industry that time lag will be allowed to permit livestock and meat purchased during the higher-price period of no control to pass through distribution channels.

Ceilings will apply at 12:01 a. m. (EST) Sunday on cattle, calves and hogs at both producer and slaughter levels. They will reach distributors and wholesalers on Sept. 5 and the retail butcher shops Sept. 9.

Cakes And Syrups Advance
Meanwhile, consumers learned that breakfasts of cakes and syrup will cost more as OPA raised ceilings for pancake and waffle mixes from 2 to 3 cents a pound on the popular 20-ounce sizes. Syrups previously had been boosted as much as 20 percent.

Rounding out its new prices for automobiles and trucks, OPA today posted a long price list for trucks and equipment made by the International Harvester Company. The new list lowered previous prices on light trucks from \$4 to \$43 but raised ceilings on heavier models from \$35 to \$764.

Two other price increases in the industrial field also were announced.

Resellers of heavy duty mechanical jacks were allowed to boost ceilings on a percentage basis instead of a straight dollars and cents increase formerly ordered. OPA said the resulting increases will be small. The increases do not apply to automobile or truck jacks.

Prices also were raised for the wooden lumber and materials used for underground mining, such as pit posts, props and similar items, and for the lumber used by steel mills for shipment of finished products. These increases ranged from 10 percent to as much as 25 percent on the better grades of timber.

Linooleum prices were raised 2.8 percent for both manufacturers and the consumers. The boost applies also to felt-base floor coverings.

Death To Student Due Auto Accident

MARSHALL, Mo., Aug. 29.—(P)—Charles W. Montgomery, 19-year-old Missouri Valley College student from Naptin, died today of injuries suffered in a motor car accident near Arrow Rock, Mo., this morning.

William D. Ross, 20, Marshall, driver of the motor car, suffered head injuries, but his condition was not critical.

Shortage Of Cars Is At Acute Stage

Great Crisis In Transportation Of Freight Ahead

By Brack Curry

WASHINGTON, Aug. 29.—(P)—The nation "is facing the greatest transportation crisis in 20 years," ODT Director J. Monroe Johnson said today.

The real pinch will begin about October 15 and continue until May, he said, with such results as:

1. Some factories will be compelled to close down or reduce operations during periods of the fall and winter.

2. The movement of crops will be strung out over a longer-than-usual period. The railroads still will be moving this year's wheat crop when the next crop ripens.

Johnson said in an interview that "the railroads simply cannot handle all the traffic which will be offered them during coming months. So when the storage facilities of industrial plants are filled, they'll just have to close down or curtail operations until they can move their goods."

Normally, Johnson said, the peak demand for railroad freight cars begins about October 15 and continues several weeks. But this year, he said, the high demand will continue well into next year. "We shall be in a terrible fix in transportation until May," the ODT director said.

More Freight Hauled
"Right now the railroads are hauling more freight than at any time during the war. For the week ended July 30, the carloading figure was over 921,000, the highest weekly loading since the week ended Oct. 12, 1941."

But demand will reach 1,000,000 cars a week by fall, Johnson said, with the result that 75,000 cars of freight will back up each week for an indefinite period.

Johnson attributes the high traffic demand to mounting industrial production, the movement of bumper food crops and the stockpiling of winter supplies such as coal and ore, by homes and factories.

Another big factor is an acute shortage of railroad freight cars. Six hundred thousand fewer cars are being constructed a little over half as fast as in 1944. And over 33 percent of all freight cars are now over 26 years old.

Johnson said the ODT's goal of 80,000 new freight cars this year will not be achieved. He attributed the lag to strikes, the terrific demand for critical materials and to "the reluctance of freight car manufacturers to rush output until they have a big backlog of orders."

Two Groups of MML Held Session Here

City Officials Discussed Legislative Needs

The board of directors and legislative committee of the Missouri Municipal League held a joint meeting in the City Hall here Thursday. More than thirty members of the League attended with Mayor Bruce Carl, of Columbia, presiding.

The group discussed the direct needs of each city which require legislation. These legislative needs are being discussed prior to proposed laws to be presented to the next Missouri state legislature which meets in Jefferson City.

The men also discussed various forms of taxation and their problems in regard to the many departments of each city.

The meeting opened at 10 o'clock in the morning and is continuing throughout the afternoon. The group adjourned at noon and had luncheon at the Bothwell hotel.

Late in the afternoon the board of directors elected Mayor Julian H. Bagby to the board, filling the vacancy created by former Mayor A. H. Wilks. Other new directors elected were: Mayor H. D. Allison, St. Joseph; Mayor Harry B. Carr, Springfield; Ray Carter, councilman from Carthage. One more vacancy is to be filled by appointment by Mayor Bruce Carl, chairman of the board.

A committee to study the question of state collected and locally shared revenue was appointed by Chairman Carl. It is in regard to monies collected by the state in which a community shares.

The committee is composed of George Stemmler, city councilor of St. Louis; Marion Lamm, city attorney at Moberly; Ruel M. Womack, commissioner of revenue of Springfield; Frank Martini, mayor of Maplewood, also vice president of the League; and Otha Rawlings, city attorney of Marshall.

Those Attending
City officials attending the meeting were F. L. Thierfelder, superintendent of the Light and Water department, Mason, and secretary of the Missouri Association of Municipal Utilities; Max H. Glover, city attorney, Carthage; Ray Carter, city councilman, Carthage; Glen Mohler, city attorney, Clayton; Bruce J. Carl, mayor of Columbia and executive director, Municipal League; Robert T. Sermon, mayor of Independence; Jerome M. Joffee, special utilities and legislative counsel, Kansas City; J. C. Griggs, mayor of Carthage; H. Tiffin Teters, city attorney, Carthage; U. G. Caldwell, city clerk, Columbia; Arthur F. Bangert, mayor of Florissant, also a member of the board of directors of the league; Marvin E. Boisseau, city attorney, University City; Frank L. Martence, mayor of Maplewood; Dr. S. B. Hughes, mayor of Clinton.

F. E. Rosback, city clerk, Springfield; T. M. Walden, fire chief, Columbia; H. D. Allison, mayor of St. Joseph; Aubrey B. Hamilton, associate city councilor, St. Louis; George L. Stemmler, city councilor, St. Louis; Ronald S. Reed, city councilor, St. Joseph; Walter Fluetcock, city official, Maplewood; Francis Wornall, director of fire departments, Kansas City; Philip A. Land, city clerk, Marshall; Otha Rawlings, city attorney, Marshall.

'Phone Strike Has Been Settled

WARRENSBURG, Mo., Aug. 29.—(P)—Irving I. Pickett, U. S. conciliation service representative, today announced that a strike which halted all local service of the Central Missouri Telephone Company since Aug. 19 had been settled.

Pickett said the telephone operators would return to work at 9:30 p. m. tonight, thus restoring normal service in the nine central Missouri counties in which the company operates. During the strike only emergency local calls and incoming long distance calls were handled.

Fifty six operators walked out at Warrensburg, Holden, Sweet Springs and Lexington. Members of the International Brotherhood of Electrical Workers (AFL), they were seeing their first contract with the company. The strike followed failure of negotiators to agree on several matters, including wages.

Pickett said terms of the settlement would not be made public until later, because there were some minor items still under discussion.

At the time the strike began, George A. Hearne, vice-president and general manager of the company said the firm's offer of a 20 percent increase in wages was rejected by the union.

Walkout At Lakes To End

Fight Will Be Carried On For A 40-Hour Week

DETROIT, Aug. 29.—(P)—Strike headquarters of the CIO national maritime union announced today the "general" walkout on the Great Lakes was being called off, effective at noon tomorrow, so that the union could "concentrate" on individual shippers.

The NMU said in a statement: "The strike committee in the port of Detroit today voted unanimously to terminate the strike against all companies as of 12 noon tomorrow, Aug. 30, with the exception of Inland Steel, Nicholson, American Steel and Wire, Johnson Transportation Co., Brown and Shado, Jupiter SS Co., and Texas Oil Co."

"The reason for this action is that:

"1. Through the pressure of the national maritime union and the lake seamen we have been able to break the seven-day work week and establish the hours of 48 at sea and 44 and 40 in port.

"2. The effectiveness of the strike has compelled the lake carriers association to publicly recommend to their members companies that the seamen on all organized ships be given conditions similar to the pattern which the NMU has established on tankers and bulk freighters.

"We must now concentrate the strike on the companies listed above that are not interested as yet in reaching a satisfactory settlement of this dispute but are interested in smashing the NMU in the Great Lakes area. x x x

"We wish to emphasize that we are not giving up the fight for the 40-hour week."

Army After More To Be In Uniform

WASHINGTON, Aug. 29.—(P)—The army, still worried about getting more men into uniform, is almost as fretful over how to persuade perhaps a million to doff their khaki.

That's the number the war department suspects may be attired illegally in army dress—including some who never packed a rifle. They bought their military garb at surplus stores with no questions asked.

The department is concerned for two reasons:

1. The army gets a black eye whenever some individual in uniform commits a crime or otherwise misbehaves in public.

2. Morale of men still in uniform goes down when fresh criticism is heaped on the army.

Brig. Gen. B. M. Bryan, the army's provost marshal general, described the situation today as "a headache to the war department and to every MP."

What to do about it is causing much scratching of official heads. One proposal was to ask congress to tighten existing laws which provide a maximum of six months in jail and \$300 fine for wearing a uniform illegally.

But that was put on the shelf even before congress quit for the year. The problem of enforcing the present law is entirely too much for the 2,300 military police currently on town and train patrol in the entire United States.

Delay Opening Of Marshall Schools

MARSHALL, Mo., Aug. 29.—(P)—Superintendent Hubert Wheeler said today that the opening of Marshall's public schools would be postponed a week until Sept. 16 because of infantile paralysis.

The third case of polio in the city had been reported earlier in the day.

Post Office To Close Labor Day

Monday, Sept. 2, being a legal holiday, all windows at the Post Office will be closed.

There will be no delivery of mail by city or rural carriers but Special Delivery mail will be delivered as usual.

The regular holiday collections will be made from street letter boxes and all out-going mail dispatched.

Production Is On Increase

Factories Stepping Up Output Of Finished Goods

WASHINGTON, Aug. 29.—(P)—Industry is pouring out civilian goods and services at a rate approaching total production at the climax of the war effort, Civilian Production Administrator John D. Small reported tonight.

Free for the present from the "stop-and-go" of labor discord, producers of basic materials have reached their virtual capacity. Small's monthly production report stated. Factories now are "within sight of full production of finished goods."

Automobile assembly lines ran 36 percent more in July than in June, while sewing machine output, the other outstanding laggard of reconversion, jumped 30 percent.

The gross national product—the value of the country's productive effort in 1939 dollars—hit a \$130,000,000,000 annual rate in the April-May-June quarter, the CPA director said.

(This would be equal to more than \$185,000,000,000 measured in terms of the 1946 dollar, which has smaller purchasing power.)

Larger Increases Expected
"A somewhat larger increase is now indicated for the third quarter, which may bring gross national product to within five percent of the all-time peak of \$142,000,000,000," the report predicted.

The peak was the second quarter of last year, the period of all-out arms production climaxed by Germany's surrender.

"Freight car loadings since mid-July have exceeded those for the same weeks of any war years," he reported.

Civilian employment hit the unprecedented total of 58,100,000. The expansion of factory and commercial activity was indicated by the fact that the entire increase of 1,400,000 over June was in non-farming jobs.

Despite this "full employment," Small estimated that more than 5,000,000 workers—3,000,000 women and 2,000,000 men—have withdrawn from the labor force in the single year since V-J day. The term "labor force" covers those in the armed services as well as those in civilian employment.

Income payments to individuals showed a rise in the second quarter for the first time since the liquidation of war production began after the European victory.

Consumer spending advanced sharply and savings declined in proportion.

Small declared the cost of living jumped more than five percent in connection with the 25-day lapse of OPA, with food prices rising 13 percent by the middle of July.

Rent Control At Columbia, Mo.

WASHINGTON, Aug. 29.—(P)—OPA tonight ordered rent controls slapped on next Sunday in 13 new areas where it said the influx of returning veterans and war workers is taxing accommodations.

It also extended two existing areas. Saturday, these were Fayetteville, Ark., to which Benton county is being added, and Santa Fe, N. M., to which precinct 28 Espanola in Rio Arriba county is being added.

The areas brought under control for the first time; and the maximum rent dates which determine rent ceilings for each living unit include:

Dallas, Columbia, consisting of Audrain and Boone counties July 1, 1945.

Arrests In Spy Ring of Germans

Claimed To Have Kept Contact With Russians

STUTTGART, Germany, Friday, Aug. 30.—(P)—U. S. intelligence authorities said last night that they had broken up a ring of German spies suspected of operating in the American occupation zone as undercover agents for Soviet Russia. There were hints of a possible large-scale German subversive movement against the U. S. army.

Counter-intelligence corps officers at Stuttgart and at U. S. army headquarters in Frankfurt revealed that the suspected spy ring was exposed after it had engaged in undercover activities for several months. Fifteen Germans were arrested.

Members of the ring were said to belong to a secret German organization known as "free Germany." This was the first time the existence of such an organization had been revealed.

Agents refused to discuss the nature or activities of the "free Germany" group and whether it was large or small. They gave indications, however, that the arrested Germans were only members of a large organization.

Spied On Secrets

There also were strong indications that the arrested Germans had spied on American secrets on their own initiative. There was no statement that they had been prompted by Russian authorities.

A man named Walther Kazmarek was said to be the leader of the ring. Intelligence officers quoted Kazmarek as saying he had received funds from Russian repatriation officers and had reported American troop movements in the Frankfurt area some months ago.

Kazmarek was trapped, the agents said, partly by a recording of a speech he made in which he said: "We support the Soviet policy fully."

Officers refused to say whether the speech was made to a group of any size.

"The leader was believed to be connected with Russian agents in the zone. He declared in a statement that he had received some money some time ago," a high intelligence officer at U. S. army headquarters said.

The ring of Germans was broken up "two or three months ago," it was said.

Price To Be Pegged On Lambs

ALBUQUERQUE, N. M., Aug. 29.—(P)—Secretary of Agriculture Clinton P. Anderson tonight announced he is modifying the price directive for lambs to provide an increase of \$3 a hundred pounds above June 30 ceilings on good and choice grades.

The modification pegs the price in relation to the ceiling at the various markets on June 30 instead of providing a top price of \$19 a hundred pounds live weight at Chicago, the method used in his directive yesterday.

Of the increase, Anderson said, about \$2 would take the place of a subsidy which the decontrol board did not restore on lamb. For grades other than good and choice, the ceiling prices are to "reflect the subsidy" which was discontinued.

Drop Short Navy Enlistments

WASHINGTON, Aug. 29.—(P)—Two and three year "hitches" in the navy will be discontinued September 1 it was announced today.

In the future, all enlistments and reenlistments will be for either four or six year periods.

Previously 17-year-olds, electronic technicians mates and certain former navy personnel could sign up for the shorter hitches.

State Fair Awards

Nineteen classes for young musicians of Missouri were offered by the 1946 Missouri State Fair. Mrs. Harvey MacGugin, Sedalia, superintendent, reported much interest.

Enrollment Increase Of Fifteen Students At Sacred Heart Hi

New Course in Chemistry Offered For First Time; Fr. Stack on Faculty

Announcement of an approximate 15-student enrollment increase for Sacred Heart high school over last year's enrollment, and a course in chemistry, offered for the first time, has been made by Sister Mary Clement, principal of Sacred Heart. The 1946-47 school year enrollment is 110. The new course in chemistry will be taught by Sister Mary Agnes, who attended Xavier university in Cincinnati, O. She will also instruct in the science classes.

Sister Mary Clement, who attended the speech institute at St. Louis University this summer, also said that Sacred Heart, which opens September 3, has been re-equipped and that new science equipment has been added. Sister Mary Benita, who instructed at the Mother House in Dayton, Ohio, will come to the high school this year to teach commercial subjects and be librarian. She is replacing Sister Mary Celestine, who will go to Minster, Ohio, to teach commercial subjects at the public high school there.

Other Teachers
Sister Mary Cortilia, mathematics and science instructor at Sacred Heart, attended classes at the Mother House in Dayton this summer. Sister Mary Thelma, who attended Xavier University this summer, will teach social science and English in the 46-47 term. Completing the roster of the high school faculty will be the Rev. Father William Stack, C. P. P. S. He will have charge of the religious classes and will be physical education instructor. Sacred Heart school instructors will be Sister Mary Agnes, seventh and eighth grades; Sister Mary Maria, fifth and sixth grades; Miss Helen Schneider, third and fourth grades; and Sister Mary Iona, first and second grades.

Horticulture

The vegetable exhibit at the 1946 Missouri state fair improved in quality and quantity over last year, said H. G. Swartout, Columbia, superintendent of the horticulture exhibits.

The greatest exhibit increase, due to favorable weather this year, was in potatoes and onions which were the best in years. More than 100 plates of onions and 52 trays of potatoes were exhibited.

Mrs. E. J. Rodeman, Jefferson City, displayed ten cards of herbs which drew comment from the officials.

Fruit exhibits were pronounced right probably due to the fact that many of the old time showmen have ceased to be active. Carl Neef and William Brengarth of St. Louis, were two of the old reliables present with fruit displays.

H. H. Baker of St. Joseph judged the exhibits. Fred Neebe, of Columbia was Mr. Swartout's assistant.

State Fair Awards Registered Percherons

Awards in the Percheron show championship contests went to Ralph L. Smith, of Chillicothe.

Following the show was a contest between teen-aged boy and girl drivers of teams. Mr. and Mrs. Fred P. Schell, of Liberty, gave money awarded in this special class. A large crowd cheered 13-year-old Paul Drake, Ayer, Ia., when he won the first prize of \$40 driving a team of Percherons named. Second place went to Joe Neal, Drexel, driving Percherons; 3rd, Keith Hartzler, Harrisonville, Mo.; 4th, Frank H. Knell, Carthage, Mo.

Smith's Major Marceau was declared junior champion stallion and Marco senior champion. Marco and Major Marceau, respectively, were grand champion and reserve grand champion stallions. Reserve junior champion was Colonel Marceau, also a Smith horse, and reserve senior champion stallion was Hahlnfels Charley, owned by Herbert Boston, Mt. Airy, Iowa.

Junior champion mare, Maybelle, senior champion mare, Maybelle, and reserve senior champion, Marceau's Song, were also champions. Ralph Smith entries. The reserve junior champion mare was Marybelle, an entry of Herbert Boston.

Sheep (Vocational Agriculture)
J. H. Foard, Jefferson City, supervisor of the state fair vocational agriculture sheep show, was placed with the exhibits.

First place awards were: Shropshire—lamb and pen of three lambs, Eldred Mohr, Norborne; ewe lamb, R. N. Butler, Republic; yearling ewe, Eldon Tietzert, Worthington.

Hampshire—lamb, Charles Armentrout, Norborne; ewe lamb, Leslie Logan, California; pen of three lambs, Armentrout; ram lamb, McWilliams brothers, Galatin; ewe lamb, Eldon Tietzert, Worthington; pen, McWilliams.

State Fair Awards Brown Swiss Dairy Cattle
The fair exhibit of Brown Swiss dairy cattle showed improvement over shows of recent years in both quality and numbers, said Olen Monahan, Smithton, dairy department superintendent.

Warren Gifford, Fayetteville, Ark., judged the show. Junior champion and grand champion bulls were exhibited by L. N. Jacobsen, Liberty. Junior champion female was Pearson's Mary, shown by Thomas St. John, Webb City, and grand champion female was judged to be Royal Jane of Vernon II, from Eastwood Farm, Excelsior Springs. The latter cow was also senior champion female.

State Fair Awards Red Poll Cattle
The 1946 Red Poll exhibit was a Missouri show with some of the best of the breed making the competition. Classed as dual-purpose cattle, the breed holds popularity on many farms. Al Darrow, Stillwater, Okla., judged the show, and Dan E. Miller, Fayette, was superintendent of the beef department.

Senior champion bull was Nector, owned by Boucheau brothers, Canton. Junior champion was Sudbourne's Fashion, shown by Logan & Logan, Tarkio. Grand champion bull was L. D. Sudbourne's Fashion, also from Logan & Logan.

Senior champion female was Weldon Springs Elsie, from Weldon Springs stock farm, St. Louis; junior champion and grand champion female of the show was Ideal Sunshine Straight, owned by A. E. Young, Meadville.

State Fair Awards Jersey Dairy Cattle
Several of Missouri's top Jersey herds showing for various awards at the state fair furnished the judge, E. N. Hansen, Ames, Ia., a difficult job of selecting the top animals.

The Canfield Farms, of Neosho, Mo., senior and grand champion with a famous Jersey bull, Masterpiece Royal Price. Junior champion bull was owned by Hallmark Farm, Kansas City.

Senior champion and grand champion female Jersey was shown by Hallmark Farm, and the junior champion cow was owned by Clifford Farmer, Willard.

State Fair Awards Shropshire Sheep
Some of the money in the aged classes was not taken in the state fair sheep show this year, but the lamb classes showed much quality, according to Alex McKenzie, judge. Entries were well distributed over the state.

Champion ram was from the flock of C. G. Meyers, Memphis, Mo., and Eldon Tietzert, Worthington, a vocational agriculture student at Unionville, had the champion ewe, in both the Missouri and open classes. J. W. Mitchell & Sons, Trenton, Tenn., was one of the exhibitors.

Joe Bill Reid, route 1, Houston, Mo., won awards as follows: 5th and 6th, one-year-old ewes; J. B. Reid 229-55782 and 243-557874; second place in group of three yearling ewes; 4th place in Missouri class for ewe one to two years old.

State Fair Awards Hampshire Sheep
The Sedalia Hampshire show was restricted to animals under three years old. Albert Dyer, Columbia, superintendent of the show department, commented that old-time exhibitors could not recall a better Missouri exhibit of Hampshire Downs.

Champion ram, in open classes was L. & M. 67T, owned by R. E. Pullin and sons, Waterloo, Iowa.

State Fair Awards Baby Beef (Junior Division)

An Aberdeen Angus calf owned by Lloyd Martin of Bogart was Grand Champion of the junior division of the baby beef show held Monday at the Missouri state fair. According to the judge, A. M. Paterson of Kansas City there was better quality stock than has been in former shows. Lloyd, a member of Future Farmers of America, is a graduate of Carrollton high school. The Grand Champion won the owner \$250 in addition to the regular prize. The half brother of the calf won the Grand Championship award at the Mid-West Vocational Show at Kansas City last year.

Aberdeen Angus calves were predominant during the latter phase of the judging when the 1-H and vocational champions and reserve champions were selected to compete for the grand championship.

The overall Reserve Grand Champion, an Aberdeen Angus steer, was Rolla J. Platner of Grand Pass, Mo., won the championship in the 4-H division, to which another Angus, owned by Forest Elton of Green Castle, won reserve champion. Lloyd Martin's calf was the FFA champion and an Aberdeen Angus shown by Dale Morgan won reserve championship in the same division. The four Aberdeen Angus champions were then shown for the Grand Championship award.

The three-steer group exhibited by the Unionville high school won first place in the vocational school class. In the county competition, the one hundred dollar award was won by the Saline county 4-H group.

At the beginning of the show, Senator and Mrs. Forrest C. Donnell greeted the group, and the senator commended the 4-H and vocational boys and girls for the strong efforts they were putting forth toward improving Missouri's live stock.

State Fair Awards Hereford Cattle
Herefords came from nine states in the state fair cattle show this year: Missouri, Mississippi, Tennessee, Iowa, Kansas, Oklahoma, Texas, Ohio and Arkansas, and the four champion awards went to breeders from four different states.

Ralph Davis, of Booneville, showed the champion bull, Pullian Domino 150th; the reserve championship going to Royal Domino C, owned by Chester F. Kroger, Cincinnati, Ohio. Champion female, Lady Husky H. 121st, was shown by the Harrisdale Farms of Fort Worth, Texas, and the reserve champion female, Tona T. 111th, was shown by Turner Ranch, Sulphur, Okla.

Rolla R. Jones, of Calhoun, had a ninth place of yearlings and sixth place get of sire. His Lady 55 Plus was third place in heifers calved after September 1, 1945.

State Fair Awards Shorthorn
Shorthorns upheld the reputation of Missouri for good beef cattle of the Durham breeding in this year's fair. W. L. Blizard, Stillwater, Okla., was judge. Dan E. Miller, Fayette, superintendent, said the show was about the same as last year in number and quality.

Sni-A-B Farms, Grain Valley, showed the champion bull. Reserve Champion was an entry of Merryvale Farms, Grandview. Champion female was also a Merryvale product. Reserve Champion female was exhibited by Clausen brothers, Spencer, Iowa.

State Fair Awards Berkshire Swine
Out-of-state exhibitors took special interest in the Missouri state fair Berkshire swine show this year. R. L. Pemberton, Peoria, Ill., was judge of the fair, and Ted Anderson, Montreal, Mo., superintendent.

Entries of D. C. Hunter, Knob Noster, were third and eighth in the junior bar pig class; sixth in the junior pig class, and first in the get of sire and three-barrow pen competition.

Principal exhibitors were Miami Farm, route 1, Peru, Ind., Milo V. Wolrab, Mt. Vernon, Ia., and Roseann Farms, Farmersville, Ill.

State Fair Awards Chester White Swine
The fact that the grand champion fat barrow of the state fair show was a Chester White made history for this popular breed. Donald Arp, Brunswick, Mo., had placed first in the open class of junior bar pigs and fifth and sixth on junior sow pigs in the open show before being handed this grand honor on his project barrow.

Senior champion and grand champion Chester White boar was exhibited by Harley King, Toluca, Ill., and the junior and reserve championships went to an entry of Donald Arp, Senior, junior, reserve and grand championships in the sow classes went to U. L. Rudasill, Molino, Mo.

State Fair Awards Swine (Vocational Agriculture)
Hampshire—Pat Hickcox, of California, had first and third place bar pigs; 2nd and 3rd sows; 3rd and 4th breeders; 1st and 2nd barrow.

Spotted Poland China—First place awards in the various classes of this breed went to Byron Wall, Rock Port, and E. W. Raasch, DeWitt.

Berkshire—Walter F. Dowdy, Green Ridge, was among the prize winners in this show, being awarded as follows: 4th and 5th barrow; 3rd and 4th sow pigs; 1st barrow; 1st breeder-feeder.

Chester White—First place awards went to Donald Arp, Brunswick.

Poland China—Teddy Albertin, California, won first honors for this show with his bar pigs, sow pigs, barrow and breeder-feeders.

Champion barrow of the show and later grand champion of the open show, with all breeds competing, was the entry of Donald Arp, Brunswick. D. C. Hunter, Knob Noster, 4-H member, had the reserve championship with his Berkshire barrow.

In the Spotted Poland futurity, Wilbur Hayes, Jr., Houstonia, placed third.

At Reunion In Illinois
Mrs. Rose Brink Hausman, Route 4, has returned home from Hoyleton, Ill., where she attended the Brink reunion marking the century since the migration of their forefathers to the United States.

Marina Brink arrived in this country with eight of their ten children one hundred years ago and settled in Illinois. There are now 565 descendants through seven generations. Each member of the family attending the reunion was given a book in which was a complete history of the family and a poem telling of the marriage of Emma and Anna Maria and their migration to America.

Mrs. Hausman and her brother, Fred W. Brink, 1394 West Fourth street, are grandchildren of the late Senator Fred W. Brink.

Accompanying Mrs. Hausman on the trip was Miss Ella Peithman, 1424 South Stewart avenue, who stopped at Ervington, Ill., for a visit with her brother, Homer Peithman.

Red Cross Corner
Mr. Ernest Vornbrock, special field representative for the Red Cross First Aid, Water Safety and Accident Prevention program will be in Sedalia Monday, August 26, to meet with the school teachers of Sedalia and Pettis county in order to discuss details of the program, and if possible, organize a group to take instructor training.

Since the announcement in last Sunday's Democrat-Capital concerning the GI terminal leave pay, and the fact that the Red Cross office was equipped to handle the applications for the veterans, the Red Cross office has been literally flooded with the veterans of Sedalia and the county. Not for some time, the period after V-J day, has it been the privilege of this office to render such a comprehensive service to veterans.

Always busy, the local ARC Chapter has been at it all this past week for eight solid hours a day. In connection with this, we would like to mention the splendid operation of the Recorder of Deeds who whenever necessary furnishes us with certified copies of discharges. Frequently such a copy is of vital importance, and Mr. Ryan produces them whenever asked for. We should like to urge all veterans who have not already done so to make application for their terminal leave pay. They may have to wait a little while, but they sit in line, rather than stand, and our office seems to be making a record in speed as well as efficiency in this respect. The sooner the application goes in to the finance officer the sooner the veteran receives his pay.

The word forecast actually is a contraction of the words forecast and castle.

Students Who Plan To Attend College

Among other students this fall, who are not pictured, will be the following:

Don Lamm, son of Mr. and Mrs. D. S. Lamm, 1303 South Osage avenue, who will follow a course in liberal arts at Westminster, Fulton.

J. W. Fullerton, son of Mr. and Mrs. J. R. Fullerton, 912 West Seventh street, who will attend Westminster and take a course in liberal arts.

Wright Guinn, son of Mr. and Mrs. Dewey Guinn, 520 East Saline avenue, will attend the Senior School of Engineering at the University of Missouri, Columbia.

Bob Lettich, son of Mr. and Mrs. J. W. Lettich, 1811 South Lamine avenue, will take a pre-dentistry course at the University of Missouri.

Bill Rissler, son of Mr. and Mrs. J. W. Rissler, RFD 5, Sedalia, will be a student at the University of Missouri.

James W. Kahrs, son of Mrs. Nora M. Kahrs, 1407 South Park avenue, will study a pre-med course at Washington University, St. Louis.

State Fair Awards Educational

Judging of the educational exhibits in the educational building was completed on Tuesday. Entries were good in the educational department, much better than last year in both number and quality.

Despite the fact that premiums were not announced until late in the school year, according to Cecil Jenkins, Jefferson City, Mo., superintendent. Judges were Mrs. Ruby Brown, Eldon, Mo., Miss Dicy Bowers, Wheaton, Mo., and Miss Dorothea Phares, Savannah, Mo.

In the rural section seven counties had entries, representing widely scattered sections of the state. Crawford county won the prize for the most attractive booth, with Pettis county second, and Vernon county third. The best county project and best single one-room project first prizes went to Pettis county, with Crawford county second in each. Pettis county won thirteen first prize awards, and fourteen second prizes, four third prizes, and one fourth prize, totaling \$159.75; Crawford county won fourteen first prize awards, nine second prizes, three third prizes, and one fourth prize, totaling \$111.25; and non-county won one first prize award, three second prize awards, seven third prizes, and two fourth prizes, totaling \$35.25. Warren county had two entries, winning a second and a third prize. Other entries were made by individual schools:

The Flowing Spring school of Cedar county, taught by Mary Same received three first prize awards, and three third prizes; the Chapel school of Pemiscot county, taught by M. Minnie Speer Boone, received two second prizes, and the Englewood school of Clay county, taught by Mrs. Audrey King, won a first prize on its only entry.

In the elementary town school section, six schools had entries. The Sedalia elementary schools received the first prize for the most attractive booth, with the Nevada schools a close contender for first prize; third prize went to the School of Osage elementary schools, and fourth prize went to the Conception elementary schools. Sedalia won nine first prize awards, ten second prizes, and five third prizes, totaling \$38.25; the School of the Osage won eight first prizes, six second prizes and five third prizes, totaling \$68.50. Nevada won seven first prize awards, two second prizes and one third prize, totaling \$45.00, and Conception received one first prize, four second prizes, and six fourth prizes, totaling \$36.75. Warrensburg received a first and a second prize on its two entries, and Stoutland received a third prize on its one entry.

In the Negro section only two schools entered. Sedalia won three first prizes, totaling \$18.00 and the Elmwood Park school of St. Louis won two second prizes, totaling \$1.00.

In the high school section, thirteen schools had entries. In the various schools, The Grand Pass high school received first place for the most attractive high school booth, the School of the Osage high school, second place; and the Nevada high school third place. The School of the Osage high school won five first place awards, four second prizes, and one third prize, totaling \$94.00. The Nevada high school received two first place awards, five second prizes, and two third prizes, totaling \$15.00, and Grand Pass high school received three first place awards, and two third place awards, totaling \$51.00. Conception high school's six entries received prizes totaling \$25.00. Sedalia high school's two entries received two first place awards, totaling \$18.00, and Tipton's lone entry won a second prize.

This section was featured by three very fine entries in Industrial Arts work by the Nevada, Grand Pass and School of the Osage high schools. Another feature was the booth of yearbooks and school papers. Yearbooks were exhibited by the Nevada, Sedalia, Grand Pass, Ruskin, Holden, Koshkonong and Exeter high schools. First place in the printed yearbooks was won by Sedalia with Nevada second, Ruskin third, and Holden fourth. First place in the mimeographed yearbooks was won by Koshkonong, with Exeter second, and Grand Pass third. Four schools entered mimeographed school papers, first place was won by School of the Osage, with Ruskin second, Shelbyville third, and Deepwater fourth. Miss Margaret Eupbanks of the Slater high school prepared two booths for the Vocational Home Economics exhibit.

In addition to the public school exhibits in the educational building at Jefferson City, the Industrial Home for Boys at Booneville, the Industrial Home for Girls at Chillicothe, the Vocational Rehabilitation School of the Blind, the Trades and Industries section of the State Department of Education, the exhibit of services offered by the Division of Public Schools of the State Department of Education, the exhibit of the Division of Health of the State Department of Public Health and Welfare, and the Warrensburg State college exhibit in charge of W. E. Johnson.

Nine New Rural Teachers
There will be nine beginning teachers in the rural schools this year. Eight other teachers on the staff to date were not teaching in this county during 1945-46, but are experienced teachers. There are four vacancies at the present time.

There are between two and five eclipses of the sun each year, and from none to three eclipses of the moon.

Motion pictures are now being made for school children so that they may be able to learn more about living than they would in actually making a trip from Los Angeles to Salt Lake City which the film covers. This film includes navigation, instruments ground crew service.

State Fair Awards Educational

Judging of the educational exhibits in the educational building was completed on Tuesday. Entries were good in the educational department, much better than last year in both number and quality.

Despite the fact that premiums were not announced until late in the school year, according to Cecil Jenkins, Jefferson City, Mo., superintendent. Judges were Mrs. Ruby Brown, Eldon, Mo., Miss Dicy Bowers, Wheaton, Mo., and Miss Dorothea Phares, Savannah, Mo.

In the rural section seven counties had entries, representing widely scattered sections of the state. Crawford county won the prize for the most attractive booth, with Pettis county second, and Vernon county third. The best county project and best single one-room project first prizes went to Pettis county, with Crawford county second in each. Pettis county won thirteen first prize awards, and fourteen second prizes, four third prizes, and one fourth prize, totaling \$159.75; Crawford county won fourteen first prize awards, nine second prizes, three third prizes, and one fourth prize, totaling \$111.25; and non-county won one first prize award, three second prize awards, seven third prizes, and two fourth prizes, totaling \$35.25. Warren county had two entries, winning a second and a third prize. Other entries were made by individual schools:

The Flowing Spring school of Cedar county, taught by Mary Same received three first prize awards, and three third prizes; the Chapel school of Pemiscot county, taught by M. Minnie Speer Boone, received two second prizes, and the Englewood school of Clay county, taught by Mrs. Audrey King, won a first prize on its only entry.

In the elementary town school section, six schools had entries. The Sedalia elementary schools received the first prize for the most attractive booth, with the Nevada schools a close contender for first prize; third prize went to the School of Osage elementary schools, and fourth prize went to the Conception elementary schools. Sedalia won nine first prize awards, ten second prizes, and five third prizes, totaling \$38.25; the School of the Osage won eight first prizes, six second prizes and five third prizes, totaling \$68.50. Nevada won seven first prize awards, two second prizes and one third prize, totaling \$45.00, and Conception received one first prize, four second prizes, and six fourth prizes, totaling \$36.75. Warrensburg received a first and a second prize on its two entries, and Stoutland received a third prize on its one entry.

In the Negro section only two schools entered. Sedalia won three first prizes, totaling \$18.00 and the Elmwood Park school of St. Louis won two second prizes, totaling \$1.00.

In the high school section, thirteen schools had entries. In the various schools, The Grand Pass high school received first place for the most attractive high school booth, the School of the Osage high school, second place; and the Nevada high school third place. The School of the Osage high school won five first place awards, four second prizes, and one third prize, totaling \$94.00. The Nevada high school received two first place awards, five second prizes, and two third prizes, totaling \$15.00, and Grand Pass high school received three first place awards, and two third place awards, totaling \$51.00. Conception high school's six entries received prizes totaling \$25.00. Sedalia high school's two entries received two first place awards, totaling \$18.00, and Tipton's lone entry won a second prize.

This section was featured by three very fine entries in Industrial Arts work by the Nevada, Grand Pass and School of the Osage high schools. Another feature was the booth of yearbooks and school papers. Yearbooks were exhibited by the Nevada, Sedalia, Grand Pass, Ruskin, Holden, Koshkonong and Exeter high schools. Arrests In Spy Ring Of Germans

(Continued From Page One)

was revealed by agents at Stuttgart.

Months Of Inquiry
The Germans were arrested after months of investigation of the secret undercover activities of the ring, the agents said.

Allegedly the Germans had maintained contact with Russian agents and sent representatives to the Russian zone of Germany.

Intelligence officers at U. S. army headquarters said Kazmarek confessed he had received 5,000 marks from Russian reparations officers.

"He alleged that he reported troop movements in the Frankfurt area some months ago," the officers declared.

The agents said the counter-intelligence corps had recorded a speech in which Kazmarek had declared: "We support the Soviet policy fully."

The arrested Germans, the agents said, were members of an organization known as the "Free Germany" group.

They refused to say whether the organization was restricted to the spy ring, or whether it was a wider subversive movement operating in the American zone against United States military authorities.

Officers at Stuttgart and Frankfurt indicated that the ring was not necessarily organized or prompted by Soviet authorities.

They implied that the Germans had taken the initiative in offering information regarding American troop movements and other U. S. secrets to the Russians, and that as a result contacts had been made with Soviet agents.

The full nature of the information which may have been offered to the Russians was not revealed. The officers stated that they could not disclose details until an official statement was issued.

It was promised for tomorrow.

Waiting For Dog

CHICAGO, Aug. 29.—(P)—It was roll call at the Warren avenue police station when seven-year-old Mary Howtana dashed past some twenty policemen, pinned a message on the bulletin board, and made a hasty retreat.

Policemen read her message: "Dog lost. I found please return to Mary Howtana, waiting at Madison and California."

When police went to Madison and California they found Mary. She wouldn't tell them where she lived, but said she would "just wait here until they find my dog."

Long Series Of Documents On Nanking

Conquering, Near-Berserk Japanese Troops Slaughtered 280,000 Chinese In Their Bestial 'Rape of Nanking' In 1937, The War Crimes Tribunal Was Told Today In A Long Series Of Documents From Those Who Lived Through The Weeks Of Horror

"This was a tragedy the like of which never has been known in history," said a Chinese report, reading to the court which is trying former premier Hideki Tojo and 26 others for war guilt.

Japanese civilian authorities, the report said, were unable to halt the rampaging victorious troops from rape, robbery, looting, murder and arson.

A report by Nelson T. Johnson, American ambassador to China at the time, said Japanese officials "were horrified when they saw the orgy of drunkenness, murder, rape and robbery. . . but failed to make any impression on the callous military commander who deliberately turned loose his men."

One Nanking foreigner, J. H. McCallum, testified by affidavit that "there were 1,000 cases of rape a night, and many by day."

His diary notation dated Dec. 19, 1937, read:

"This is a hell on earth. It is a story too horrible to relate. People are hysterical. Women are being carried off every hour of the day and night."

He said he watched one Japanese soldier smothered a baby to death because it whimpered while its mother was being raped.

Investigate Ku Klux Klan

HARRISBURG, Pa., Aug. 29.—(P)—Governor Edward Martin today directed state police to investigate the Ku Klux Klan in Pennsylvania.

The executive ordered the inquiry upon receipt of a request for such action from Justice Meier Steinbrink of the New York state supreme court. Justice Steinbrink acted as chairman of the board of directors of the B'Nai Brith anti-Defamation League.

Before arrival of the justice's letter, Martin announced "I have, on many occasions, publicly expressed my vigorous opposition to any un-American organization."

Justice Steinbrink in asking an inquiry, cited what he said was "an open letter to the public" from the Franklin county, Pa., Klan published in the Chambersburg, Pa., Public Opinion last Friday and urged the Pennsylvania governor "to direct the investigative and prosecutive forces of the state" to proceed immediately against the Klan.

The Franklin county Klan, Steinbrink said, was inciting race hatred by falsely claiming in the advertisement that "if the Negro gets his vote they will turn quickly on those who held them down."

Stolen Plane Is Located

PERRYVILLE, Mo., Aug. 29.—(P)—A two-passenger monoplane, which had been reported stolen from a St. Louis county airport last Sunday, landed here yesterday and the pilot, identified by the Missouri Highway Patrol as George A. Andrews, 24, of Houston, Texas, was placed under arrest.

Sate Trooper R. A. Hollman said the man was apprehended when he landed to refuel and quoted him as saying he refueled here Monday, after flying to Memphis, Tenn. He will be turned over to federal authorities, Hollman said.

The owner of the plane, Edward Lee, of Houston, said Andrews accompanied him on a flight to St. Louis after Lee had met Andrews casually at a Houston airport. Lee came to St. Louis to visit his mother, who has been ill. Andrews and the plane disappeared last Sunday, Lee said.

Explosions On Tanker In Gulf

KEY WEST, Fla., Aug. 29.—(P)—Two explosions rocked the oil tanker Chester Sun 100 miles in the Gulf of Mexico from Key West today and injured four men.

The second explosion occurred while the crew was staging a two-hour battle with fire following the first blast.

Chief Mate Marshall Hess, 28, of Birdsboro, Pa., reported at the naval hospital here that "the forward part of the deck was blown over the side."

"The deck is hanging over the side, just a few feet above water. Had anybody been forward on the deck when the first explosion occurred, they would have been blown to bits."

The Chester Sun is owned by Sun Oil Company and was en route from Philadelphia to New Orleans.

The four men flown here by a coast guard rescue plane reported that the first explosion occurred in the No. 2 hold in the forward part of the ship. A distress call was flashed.

Fire raged for two hours, and as the crew battled it with hoses and steam, the second explosion sent a flash of flame rolling over the deck.

With the fire extinguished and the injured men transferred to the coast guard rescue craft, the Chester Sun continued her voyage under her own power to New Orleans.

Car Overtakes In A Collision

A 1934 Studebaker sedan was overturned when it was hit by a 1937 Ford coach in an intersection. Smithton, Mo., late Thursday afternoon. About \$100 damage resulted to both automobiles.

Mrs. Glenn Shaw, Omaha, Neb., was driving the Ford and Jesse Martin, Ottumwa, was driver of the Studebaker.

Mrs. Shaw was accompanied by two friends and Martin's family was with him. No one was injured.

Buchanan Held On Murder Charge

LOS ANGELES, Calif., Aug. 29.—(P)—Forrest O. Buchanan, 40, arrested at the Elsberry, Mo., home of his parents three weeks ago, was ordered held for trial today on a murder charge.

The charge was filed following the disappearance of his wife, Marjorie Buchanan, whose body later was found by a deer hunter in rough country near here.

Buchanan was held for trial after his preliminary today.

Damage Slight In Collision Of Cars

The police were called to the scene of an accident Thursday afternoon about 5:30 o'clock at Walnut street and New York avenue. A Ford sedan owned by B. H. Payne, rural route 5, Sedalia, and a '37 Pontiac belonging to Forrest J. Miller, 318 East Walnut, were the vehicles involved in the wreck.

The car driven by Payne was traveling north on New York while the car driven by Miller was traveling east on Walnut.

The damage resulting was small and no arrests were made.

Rush Week Postponed

COLUMBIA, Mo., Aug. 29.—(P)—Miss Thelma Mills, University of Missouri director of student activities for women, announced last night that rush week for social sororities would be held September 24 to 30.

Originally the program was set for the week of September 10 to 17. The change was made after university officials announced a 13-day delay in the opening of the fall term.

Painter Of Kansas Murals Dies

TOPEKA, Aug. 29.—(P)—John Stuart Curry, 48, who died today of a heart attack at Madison, Wis., was a Kansas and his state, like others, turned to a native artist when she began thinking about murals in the state capitol building.

Curry, Kansas' most noted artist, was born and raised near Winchester, Jefferson county, and after attending high school he went to art institutes at Kansas City and Chicago and attended college at Beaver Falls, Pa.

A few years later, Kansans began hearing of Curry's growing reputation as an artist in the east and leading Kansans tended by William Allen White editor of the Emporia Gazette, formed a committee to persuade Curry to paint the murals which now adorn the walls of Kansas' statehouse.

Thousand of Kansas school children contributed approximately \$8,000 in pennies, nickles and dimes to get the project underway, and an additional \$2,000 was approximated to complete the project by the 1941 legislature.

Curry, when he came to do the paintings, said, "I have my own ideas about telling the story of pioneers coming into Kansas," and it later developed that his ideas, in comparison to those of some members of the legislature, were not alike.

Curry painted the greatest portion of the murals in the summer of 1940 but another \$2,000 was needed to gain completion of the project.

When the proposal for \$2,000 to finish the paintings appeared before the legislature, several senators and representatives contended that Curry's work was not art and more particularly did not portray Kansas scenes.

The bill finally passed, and Curry completed the paintings in May, 1942.

Defendants Uncomfortable At Nazi Trial

Prosecutor Remarks On Their Efforts To Shift Blame

NUERNBERG, Germany, Aug. 29.—(P)—U. S. Prosecutor Thomas J. Dodd asked today for the conviction of five Nazi organizations on war crime charges, declaring they were part of the Hitlerian police state perfected "into the most absolute tyranny of modern times."

Dodd denounced defense efforts to shift the blame for war crimes from one German group to another. The 21 individual defendants in the box squirmed uncomfortably as he attacked them, their attorneys protesting indignantly their self-professed ignorance of the deeds of the organizations which they headed.

Herman Goering once raised half out of his seat as if wanting to clamber over the rail, but relaxed even before the military policeman at his side found it necessary to restrain him.

Dodd said the organizations specified in his speech were "Nazis created" or "Nazi-perverted."

Named Principal Agencies
He declared the indicted Reich cabinet, political leadership corps SS Elite Guard, SA Brown Shirt, Gestapo — together with the military high command — were the principal agencies through which the Nazis effected their "enormous crimes" against civilization.

"Deprive the Nazi conspirators these organizations and they would never have accomplished their criminal aims," Dodd told the tribunal. By convicting them, he said, the court would show mankind:

"That no crime will go unpunished because it was committed in the name of a political party or of a state; that no crime will be passed by because it is too big; that no criminals will avoid punishment because they are too many."

Dodd is executive trial counsel for Associate Justice Robert H. Jackson, the U. S. chief prosecutor.
